

GET CAUGHT UP IN TWICE THE FUN AT OMSI

Head to OMSI between August 15th and September 27th and you'll catch two exciting adventures for one admission price. Because it's your chance to see both Nature's Fury and Communications On The Move.

Nature's Fury lets you play with the forces of Mother Nature. You can explore the inside of a volcano, change the course of a river and make the wind blow. Plus, you'll be shaken by an earthquake and even see a live tornado.

What's more, at Communications On The Move, you can check out the latest in communications. You'll start by watching your voice paint a picture on a computer

screen. Then drive through an imaginary town while you talk on the phone. You can even record a secret message for a friend.

Come see the rest for yourself. Because at OMSI, there's twice the fun.
