GETTING HITCHED

Spring is here, and along with it all of our rituals around romance: the fever, the fling, the crush, the love and, of course, the weddings and commitment ceremonies. Such celebrations have created a \$70 billion industry in this country. From the invitations to the dress to the attendants, music and food, it can be more than a little daunting.

But as you'll see here, there are lots of resources to help you make a ceremony special without breaking the bank or using cookie-cutter formulas. Eugene is a town full of alternatives to those formulas, from alternative ministers, to beautiful papers for your invites, to sparkling wines from a local vintner — there's plenty here to make the big day your own. Enjoy! —*Bobbie Willis*
