DO YOU HAVE THE FOLLOWING SYMPTOMS:

Problems with Sleep?

Difficulty
Concentrating?
Lack of Energy?
Irritability?

If you are between the ages of 21 to 64 and you have had insomnia related to depression for the past 6 months or less, you may qualify for a research study investigating the safety and effects of an investigational medication to aid in sleep for people with depression. Qualified participants will receive an approved antidepressant medication in addition to the investigational medication. Lab tests, study visits, and study related physical exams are provided at no cost to you as well as compensation for time and travel.

OREGON PSYCHIATRIC PARTNERS
