

LETTERS TO THE EDITOR

There is a way to treat each other and communicate our feelings and needs. See Rosenbergs' book *Nonviolent Communication*.

The existing problem is massive, the solutions difficult to imagine. The current justice system needlessly fills jails, is intolerable and heartbreaking. There is a more effective way.

SUPPORT OUR OWN

We just got rid of a natural foods corporation from out of state when Wild Oats left Eugene because there was not a big enough space available for their envisioned operations. (Real reason?)

Capella Market — staffed by Oasis and Wild Oats former employees so happy to be in their old home again now on a comfortable basis — Sundance, Friendly Market, The Kiva, The Red Barn, Market of Choice will all be hurt by the city's subsidizing of a Whole Foods big-box store in downtown Eugene. And how will our seasonal Farmers' Market, now expanded to three days, compete with the Texas corporation?

Please write Mayor Piercy and our city councilors, today: Let your leaders know that Eugene supports its own, not out-of-state corporations who will siphon off the life-energy of our wonderful, healthful, small businesses.
