You are invited to discuss challenges facing the energy transition and the benefits of renewable energy plus information about global heating Al Gore HASN'T told you.

The Lane County Energy Round-Up Forums provide an opportunity to interact about creative solutions and policies on energy efficiency, renewable energy (biofuels, solar, New Energy) and Renewable Portfolio Standard (RPS) legislation (already adopted in 23 states).

"These are important discussions," observed Lane County Commissioner Pete Sorenson, group adviser. "How can we create jobs for a sustainable economy that will also enhance and protect our environment?"
