## Get back in the game!

Whether you're a busy mom, an elite athlete, or do extreme sports, an injury can slow you down. To resume your daily schedule sooner, come to the Slocum Center for Orthopedics & Sports Medicine. We'll help you get back to your game.

Monday through Friday we check out injuries less than seven days old at our Rapid Access Clinic. Just walk in, or call to schedule an appointment within 24 hours.

I'm Lisa Pomranky, M.D. At the University of South Carolina, I completed a fellowship in primary care sports medicine and enjoyed caring for Division I and II collegiate athletes. I also treated patients with common orthopedic injuries. It's exciting to be in such an active community as Eugene. I look forward to meeting you.

I'm here to help you get back in the game – and live in motion.
