Neil Young

FORK IN THE ROAD

NEIL YOUNG
FORK IN THE ROAD

Rock and Roll Hall of Famer Neil Young is stirring things up again. This time he is rolling on down the road not only with an auto-centric concept album but with his own electric ride. Fork In The Road, whose largely ecocar themed songs he debuted in concert during the past year, will get a push from the 1959 Lincoln Young has converted to hybrid technology and which he plans to drive to Washington, D.C.
