**PAUL OAKENFOLD - PERFECTO VEGAS:** Consisting of 21 exclusive tracks, this storming yet uplifting set focuses on the less pop-leaning, 'classic Oakenfold' sound that core fans have been waiting for since Oakenfold's Grammy-nominated 2004 album, 'Creamfields.' CD release features two bonus tracks. Released Tuesday, July 7, 2009

**\$10<sup>99</sup>**

**JOB FOR A COWBOY - RUINATION:** Ruination sees JFAC advance by leaps and bounds; infectious riffs, keen dynamics and the assertive vocals of rising star front man Jonny Davy combine to produce an album that is at once powerful, expressive, confident and commanding. Released Tuesday, July 7, 2009

**\$10<sup>99</sup>**

**BJORK - VOLTAIC (LIVE):** She recorded the Voltaic live CD in one take at Olympic Studio in London with her new band, prior to her 2007 Glastonbury appearance, presenting the set she would play on tour songs from Volta and new arrangements of such older material as Pagan Poetry, All Is Full Of Love and a thunderous version of Army Of Me.

**\$14<sup>99</sup>**

**Ultra Weekend 5**

**JASON NEVINS - ULTRA WEEKEND 5:** The next installment in summer's essential dance compilation series is a double CD containing the biggest club hits, radio mixes/remixes, and some of the world's top DJs. The perfect soundtrack to ensure the weekend lasts all week long!

**\$10<sup>99</sup>**

**THE MARS VOLTA - OCTAHEDRON:** Grammy winner for Best Hard Rock Performance, The Mars Volta's punkperverted neo-psychedelia goes acoustic on Octahedron. Says the band's Cedric Bixler Zavala: 'There's electricity throughout it! But that's what our band does - celebrate mutations.'

**\$7<sup>99</sup>**

**AGAINST ME! - ORIGINAL COWBOY:** 'The Original Cowboy' was only meant to be a trial run, but, listening to it today, there's a part of me that feels foolish for ever recording these songs a second time'. Fortunately for their adoring fans, with the release of 'The Original Cowboy', we get to enjoy this momentous album in its' original incarnation and judge for ourselves! Released Tuesday, July 7, 2009
