

Microbes and the Modern World

New technologies are changing our understanding of the smallest forms of life.

The Graduate Evolutionary Biology and Ecology Students present an educational seminar series featuring three University of Oregon professors.

Dr. Karen Guillemin 29 May

Institute of Molecular Biology

Molecular dialogues with the microbes inside us.

Can you live without your microbes? Dr. Guillemin is working to understand how humans and other animals benefit from the microbial guests within their bodies. In order to unravel the relationships between microbes and animals, her lab has pioneered a microbe-free zebrafish model that allows them to precisely study the interactions between hosts and their microbes.

TWEENS TO THE RESCUE

Lifeguard in Training
EUGENE FAMILY YMCA

Love the Water?

Check this out! Our Lifeguard in Training (LIT) program is for youth 11-15 years old who enjoy swimming, working with other people and are ready to take on some responsibility.

During this two week session, our experienced instructors will teach you the basics of:

- water rescue and first aid
- professional lifeguarding
- swim lesson instruction

We emphasize teamwork and responsibility, but most of all, having fun!

Cost \$75 per two week session
Registration YMCA Welcome Center
Times 2-6 pm Monday-Thursday
Sessions

- July 2-12 (No class on the 4th)
- July 16-26
- July 30-August 9

Pre-Registration required.
