The history of the vibrator goes back farther than you might expect — in 1880, Dr. Joseph Granville patented the first electromechanical vibrator, although earlier versions existed. Starting in the late 1800s, doctors used vibrators to massage the “pelvic area” of women suffering from “hysteria.” Or, you know, to give them mind-blowing orgasms. Sarah Ruhl’s play, *In The Next Room*, explores the comedic impact of this unconventional treatment on a stately Victorian doctor and his wife. Who knew the 19th century could be so progressive?

In *The Next Room* shows 7:30pm Wednesday, Nov. 13 through Saturday, Nov. 23, The Blue Door Theater, LCC Campus. \$8, \$5 stu. & sr. —
Amy Schneider
