When Michael Rockefeller, a member of the wealthy Rockefeller family, mysteriously disappeared during an expedition to New Guinea in 1961, many speculated that he drowned or was eaten by sharks. The actual story, according to journalist Carl Hoffman, was a bit darker than that. On Thursday, March 27, Hoffman will speak at the downtown library to promote his new book, ***Savage Harvest: A Tale of Cannibals, Colonialism and Michael Rockefeller's Tragic Quest for Primitive Art***. Hoffman traveled to New Guinea to investigate the mystery, and after 50 years of fuzzy details, he dug up new evidence indicating that Rockefeller's death was not an accident. Read the book to find out more, and attend the talk to get your copy signed.

Carl Hoffman speaks about his new book 6pm Thursday, March 27, at the downtown library. FREE.
— Amy Schneider
