their forever

about 3 months old along with their sweet little
mama. Wiggly Tails is a foster based rescue and
we are always needing help with foster care

Obesity is a common plight
among sedentary housecats.
But lack of exercise is not
always the cause of cat's
weight gain. **Angel 2** came
to us last March as a rail-thin
mother struggling to nurse
her kittens. Having a steady
supply of food must have
been a welcome change to
the daily struggle of being a
hungry stray. However, Angel continued to indulge long after her
kittens were grown and adopted. Perhaps food took the place of
her kittens and is now standing in for the home and family that
she is desperately waiting for.
Weighing in at a hefty 13 pounds, Angel's hunger for love has
been misdirected for 13 months too long.

Rescued Cat of the Week

After she was abandoned at
a lumber mill, **Carol's** only
companions were feral cats.
While being fed and monitored
over the winter by the colony's
caretaker, it became very clear
that this young gal wasn't feral
and missed human interaction so
working with Springfield Animal
Control and WAG, she was brought into our program. Carol, the
not so feral, got a clean bill of health and is soaking up all the
love and attention she can get. Carol is a sweet and gentle little
girl who will make a great addition to any family!
