A mind is responsible for the traffic light, the blood bank, ice cream, peanut butter, the doorknob, the microphone, the elevator, clothes dryer, lawn mower, pacemaker, the typewriter, guided missile, mailbox, the air conditioner, automatic transmission, curtain rod, baby carriage, lawn sprinkler, fountain pen, dust pan, the hand stamp, first open-heart surgery, cataract laser, fire extinguisher, doorstop, home security camera, the golf tee, fire escape, potato chip, food preservation, synthesized cortisone, the guitar, railroad telegraphy, envelope seal, printing press, bicycle frame, rocket catapult, insect destroyer gun, ice cream scoop, window cleaner, laser fuels, folding chair, gas mask, mop, refrigerator, pressing comb, urinalysis machine, door lock, electric cutoff switch, telephone transmitter, stair-climbing wheel-chair, hairbrush, egg beater, eye protector, electric lamp bulb, biscuit cutter, chamber commode, almanac, horse shoe, lunch pail, motor, lantern, key chain, furniture caster, ironing board, sugar-refining system, lemon squeezer, portable weighing scales, wrench, airplane propeller, ore bucket, steam boiler, portable x-ray machine, cotton chopper fertilizer, street sweeper, cattle-roping apparatus, spark plug, galoshes, casket-lowering device, clothes wringer, disral car coupling, riding saddles, and so on and so on. The list is endless. Indeed, it's time to stop and celebrate the fact that each and every one of the wonderful innovations mentioned here came from the mind. The mind of an African American. By supporting minority education, you keep open the possibility of tomorrow's great ideas. Because of all the things that the human mind has created, perhaps the most amazing is the one that has yet to be created. And that possibility is a terrible thing to waste.

To support and to learn more about great African American innovators, please visit us at www.auntpattys.com or call 1-800-332-UNCF.
