

There are so many reasons to love ***Juras-sic Park***. Even for those of us who never got into trouble for conducting fossil digs in the backyard as a child, the appeal of the dinosaur is pretty much self-explana-tory. But beyond that, *Jurassic Park* gives us so much more — a dash of hesitant '90s feminism, a comical Jeff Goldblum, a blend of CGI and animatronics that still dazzles our jaded 21st century eyes. And don't even get me started on John Wil-liams' majestic score, perfectly encapsu-lating the quiet dignity of a brachiosaurus. In so many words, life finds a way, and you don't want to miss it.
