

FREE WILL ASTROLOGY

BY ROB BREZSNY

ARIES (March 21-April 19): What's the difference between a love warrior and a love worrier? Love warriors work diligently to keep enhancing their empathy, compassion, and emotional intelligence. Love worriers fret so much about not getting the love they want that they neglect to develop their intimacy skills. Love warriors are always vigilant for how their own ignorance may be sabotaging togetherness, while love worriers dwell on how their partner's ignorance is sabotaging togetherness. Love warriors stay focused on their relationship's highest goals, while love worriers are preoccupied with every little relationship glitch. I bring this to your attention, Aries, because the next seven weeks will be an excellent time to become less of a love worrier and more of a love warrior.

TAURUS (April 20-May 20): How will you deal with a provocative opportunity to reinvent and reinvigorate your approach to work? My guess is that if you ignore this challenge, it will devolve into an obstruction. If you embrace it, on the other hand, you will be led to unforeseen improvements in the way you earn money and structure your daily routine. Here's the paradox: Being open to seemingly impractical considerations will ultimately turn out to be quite practical.

GEMINI (May 21-June 20): Is it possible that you're on the verge of reclaiming some of the innocent wisdom you had as a child? Judging from the current astrological omens, I suspect it is. If all goes well, you will soon be gifted with a long glimpse of your true destiny -- a close replica of the vision that bloomed in you at a tender age. And this will, in turn, enable you to actually see magic unicorns and play with mischievous fairies and eat clouds that dip down close to the earth. And not only that: Having a holy vision of your original self will make you even smarter than you already are. For example, you could get insights about how to express previously inexpressible parts of yourself. You might discover secrets about how to attract more of the love you have always felt deprived of.

CANCER (June 21-July 22): I'm not asking you to tell me about the places and situations where you feel safe and fragile and timid. I want to know about where you feel safe and strong and bold. Are there sanctuaries that nurture your audacious wisdom? Are there natural sites that tease out your primal willpower and help you clarify your goals? Go to those power spots. Allow them to exalt you with their transformative blessings. Pray and sing and dance there. And maybe find a new oasis to excite and incite you, as well. Your creative savvy will bloom in November if you nurture yourself now with this magic.

LEO (July 23-Aug. 22): One of your old reliable formulas may temporarily be useless or even deceptive. An ally could be withholding an important detail from you. Your favorite psychological crutch is in disrepair, and your go-to excuse is no longer viable. And yet I think you're going to be just fine, Leo. Plan B will probably work better than Plan A. Secondary sources and substitutes should provide you with all the leverage you need. And I bet you will finally capitalize on an advantage that you have previously neglected. For best results, be vigilant for unexpected help.

VIRGO (Aug. 23-Sept. 22): Attention! Warning! One of your signature fears is losing its chokehold on your imagination. If this trend continues, its power to scare you may diminish more than 70 percent by November 1. And then what will you do? How can you continue to plug away at your goals if you don't have worry and angst and dread to motivate you? I suppose you could shop around for a replacement fear -- a new prod to keep you on the true and righteous path. But you might also want to consider an alternative: the possibility of drawing more of the energy you need by feeding your lust for life.

LIBRA (Sept. 23-Oct. 22): Thank you for all the entertainment you've provided in the past 12 months, Libra. Since shortly before your birthday in 2015, you have taken lively and gallant actions to rewrite history. You have banished a pesky demon and repaired a hole in your soul. You've educated the most immature part of yourself and nurtured the most neglected part of yourself. To my joyful shock, you have even worked to transform a dysfunctional romantic habit that in previous years had subtly undermined your ability to get the kind of intimacy you seek. What's next? Here's my guess: an unprecedented exemption from the demands of the past.

SCORPIO (Oct. 23-Nov. 21): Are you able to expand while you are contracting, and vice versa? Can you shed mediocre comforts and also open your imagination to gifts that await you at the frontier? Is it possible to be skeptical toward ideas that shrink your world and people who waste your time, even as you cultivate optimism and innocence about the interesting challenges ahead of you? Here's what I think, Scorpio: Yes, you can. At least for right now, you are more flexible and multifaceted than you might imagine.

SAGITTARIUS (Nov. 22-Dec. 21): You Sagittarians are famous for filling your cups so full they're in danger of spilling over. Sometimes the rest of us find this kind of cute. On other occasions, we don't enjoy getting wine splashed on our shoes. But I suspect that in the coming weeks, the consequences of your tendency to overflow will be mostly benign -- perhaps even downright beneficial. So I suggest you experiment with the pleasures of surging and gushing. Have fun as you escape your niches and transcend your containers. Give yourself permission to seek adventures that might be too extravagant for polite company. Now here's a helpful reminder from your fellow Sagittarian, poet Emily Dickinson: "You cannot fold a flood and put it in a drawer."

CAPRICORN (Dec. 22-Jan. 19): I believe that during the coming weeks you will have an extra amount of freedom from fate. The daily grind won't be able to grind you down. The influences that typically tend to sap your joie de vivre will leave you in peace. Are you ready to take full advantage of this special dispensation? Please say YES YES A THOUSAND TIMES YES. Be alert for opportunities to rise above the lowest common denominators. Be aggressive about rejecting the trivial questions that trap everyone in low expectations. Here are my predictions: Your willpower will consistently trump your conditioning. You won't have to play by the old rules, but will instead have extra sovereignty to invent the future.

AQUARIUS (Jan. 20-Feb. 18): According to my analysis of the astrological omens, you can expect an unlikely coincidence or two in the coming days. You should also be alert for helpfully prophetic dreams, clear telepathic messages, and pokes from tricky informers. In fact, I suspect that useful hints and clues will be swirling in extra abundance, sometimes in the form of direct communications from reliable sources, but on occasion as mysterious signals from strange angels.

PISCES (Feb. 19-March 20): You know that inner work you've been doing with such diligence? I'm referring to those psycho-spiritual transformations you have been attending to in the dark ... the challenging but oddly gratifying negotiations you've been carrying on with your secret self ... the steady, strong future you've been struggling to forge out of the chaos? Well, I foresee you making a big breakthrough in the coming weeks. The progress you've been earning, which up until now has been mostly invisible to others, will finally be seen and appreciated. The vows you uttered so long ago will, at last, yield at least some of the tangible results you've pined for.
