

tating fear for our neighbors from south of the border form the context in which measure 105 exists.

These policies are a public safety issue for communities of color, U.S. citizens and immigrants alike.

It is no wonder that people associated with Oregonians for Immigration Reform (OFIR) are also associated with white nationalists. We've seen this before with the internment of Japanese-Americans, the Chinese Exclusion Act and the 1924 law restricting southern and eastern Europeans (also said to be dirty, criminal and a threat to American jobs).

It was shameful then and it is immoral now. Vote NO on 105.

MISOGYNISTS UNANIMOUS

Given Donald Trump's history of loud and proud endorsement of abusive and assaultive behavior toward women, we shouldn't be surprised by his choice of Brett Kavanaugh for the Supreme Court. The colloquial expressions "peas in a pod," "it takes one to know one" and "birds of a feather" come to mind.

NO TO RACIAL PROFILING

Oregon's sanctuary law has worked very well for decades. It forbids state agencies, including law enforcement, from using state resources or personnel to detect or

apprehend persons whose only violation of the law is that of federal immigration law.

If Measure 105 passes, immigrants could be targeted based on how they look because of the perception that they may be undocumented. That's not the kind of community I want to live in. That kind of racial profiling was going on before our sanctuary law passed and was the reason for its passage.

If this measure passes, immigrants will be less likely to talk to police, as victims of crime and as witnesses. That makes our community less safe for all of us.

Of course anyone who violates Oregon's criminal code should be prosecuted. That's what happens now and that will continue to happen. And it's not what this law is about.

This law is about diverting our local law enforcement resources to do the job of the federal immigration authorities. Those law enforcement resources are already stretched too thin.

Please vote no on Measure 105.
