Because of Gordon Lafer, Hundreds of Students in Our Lowest-Income Elementary Schools Now Have Librarians

“When we spoke out about the importance of elementary school certified librarians, Gordon Lafer was not only a Board member who listened, but he asked questions, looked at information, and eventually convinced all other Board members to support his proposal. Thanks to Gordon’s efforts over two years, for the first time in 20 years we have teacher librarians back at Chavez, Holt and Howard elementary schools.
