

and Capitol Police were seriously traumatized. His culpability, and that of his co-conspirators, who are getting real prison time, is being adjudicated now, and it is appearing that No. 45 was — and is — a major part of the problem, not the solution, to this whole debacle.

We elect people to go to Salem or Washington, D.C., for one purpose: to make or amend laws. Laws that we all must heed. We have a ratified Constitution that lays out how our republic is to be run. If the 14th Amendment applies to Trump's actions, or inactions, like the

law experts say, then use it!

Any American military commander who is AWOL in the heat of battle is not subsequently promoted. Instead, he faces court martial and even death. Trump was the commander in chief on Jan 6. He should face no less. If Trump or any of his cohorts are allowed to be on a ballot like nothing happened, then our society really is in trouble.

WHY BAN E-BIKES ON A BIKE PATH?

Native Eugenean here. I support mostly liberal leaning politics. I love Eugene. However, I am frustrated with the city of Eugene. Why would they prohibit e-bikes, scooters, etc on the North Bank Bike Path? Who decided this? Did we vote on this?

This is ridiculous. Make a speed limit for everyone, and leave it at that.

Literally, I can apparently build a shelter on the banks of the river, steal cars and bikes and poop on sidewalks,

but I cannot ride my e-bike on the bike path. This is a huge mistake by the city of Eugene. My family and I love our bikes. E-bike sales are growing faster than any other bike sales. E-bikes are good for the environment, good to get out-of-shape people out and about.

E-bikes, illegal on North Bank Bike Path. Why?
