The Power of Veganism addresses the critical impacts that animal agriculture has upon the environment, our relationships to other living beings, and our health.

A graduate of the **University of Oregon**, Dr. Kong is now a faculty member at the **University of Richmond-Virginia**, and is a compelling advocate for achieving positive world change through the ethics of plant-based nutrition.

Attend this illuminating and informative free lecture and learn how adopting a green diet could be one of the most powerful decisions you ever make in your life. Dr. Kong helps us rekindle the center of kindness and compassion that resides within each and every one of us.

Mark your calendars for May 24.
