

# ESTABLISH YOUR MOTHER BLOCKS

We have a limited few of individual specimen plants of our fine selections.

These plants are a "must" for establishing your high standard mother blocks. Plant them and be prepared for future market demand for top quality bulbs.

These are parent plants of high blooming records, and enviable bulb and bulblet re-production records. By "parent plants," we mean re-planted, re-selected commercial sizes, re-planted to further prove their high bud count.

We have established these records by continued re-selection and re-continued planting beyond the usual field planting.

These plants will be dug as units—bulb and bulblets kept intact together — and packed as units, three plants to the box.
