## LOOK to Greyhound first for MORE FREQUENT SERVICE

Most bus travelers will tell you the one thing they value most about Greyhound service is its convenience. They like to be able to go... and come back... when they want to.

Greyhound recognized this important fact from the start... planned and acted accordingly. Result: Greyhound, today, has built up a truly amazing frequency of daily service unequalled by any other system of intercity transportation!

This achievement in public service has taken years of pioneering experience, a great fleet of buses, willingness to accept financial risk... and, most important, real faith in the future of the communities Greyhound serves. For Greyhound looks ahead, and often increases frequency of service before increased patronage exists.

Greyhound knows your community... has confidence in its progress... and will continue to anticipate its growing transportation needs in the years ahead by providing better, more frequent service than ever.

FOR THE BEST IN BUS SERVICE... COUNT ON GREYHOUND
