AGAIN!
Greyhound
Fares now**

Lowest in Oregon...Lowest in History!

WITHIN the past few months Greyhound has steadily reduced fares in Oregon to a uniform *one-and-a-half cents a mile*. And now . . . Greyhound has *again* cut fares, between Oregon and California cities, at a time when practically everything else you buy costs more.

Yet Greyhound *service* in Oregon, and between Oregon and California cities,

is steadily being increased! You now get better Greyhound service than ever before, at the lowest bus fares in the state. Greyhound believes this policy of better-than-ever service at lower fares is justified because it *knows*, intimately, the transportation needs of the communities it serves and has faith in their future development and progress.
