

TEEN TIME

BY
You Guess Who

From reports around school Tuesday, not many enjoyed the circus. More were interested in the "Outlaw."

Ping-pong seems to be the latest fad around town. Tables have been set up at school, and the B.Y.

Pine Cone THEATRE

of 1945"

with Eleanor Powell, Dennis O'Keefe, W. C. Fields, Eugene Pallette, plus a cartoon.

F. has one at the church.

Tuesday after noon was a busy time, when the seniors decided on their commencement cards and the juniors picked their class rings.

Neiland Abbott returned last week after being discharged from the Navy. Most of the gang that have lived here any length of time know Neiland, and all who know him will tell you he is a swell guy.

Aren't you students proud of your school board? That great public spirited organization who can't see fit to give a little to that group of men who are trying their best to help this community get all the electricity they need. You kids probably didn't know that the meeting to be held at Coquille this Saturday was very important to the community from the standpoint of attempting to furnish this area with all the power it needs. Now a great many of us do not have electricity, yet that one article is one of the most necessary things in our modern way of living. Yet some poor misguided soul who probably already has this precious article refuses us, we the students of Brookings High School one of our best chances to have all the power we need. Aren't we lucky people? (contributed.)

A little better news is the fact that the gym floor is almost completed. It looks very nice. Let's all help keep it that way.

The classes have appointed their reporters. Will these reporters please see to it that all news, announcements and gossip are turned in to the Pilot not later than Tuesday morning.

Mr. Kemp is going to start having Sunday matinees again, beginning this Sunday at 2 o'clock, especially for those who can't or don't like to go out week nights because of the added burden on "the morning after."

The Serious Side

YOUTH is the golden season of foolishness, for which the wise would barter all their wisdom, the rich all their wealth, and call it a rare bargain, well knowing the value of youth triumphant.

Fire Prevention Week-1946

BY THE PRESIDENT
of the
UNITED STATES
OF AMERICA

A PROCLAMATION

Whereas fires threaten this year to exact the greatest toll of lives and the greatest waste of material resources that our nation has experienced; and

Whereas this destruction is taking place at a time when the entire world is faced with distressing shortages of food and housing and nearly every commodity essential to speedy reconversion to a peacetime economy; and

Whereas the vast majority of destructive fires are preventable by the exercise of greater caution on the part of all our citizens:

Now, therefore, I, Harry S. Truman, president of the United States of America, do hereby designate the week beginning October 6, 1946, as Fire Prevention Week.

I ask every citizen to do his part by learning how to detect and eliminate all possible causes of fires in his home and in his business, in order to safeguard both lives and property from the holocaust of fire. I also request that the state and local governments, the chamber of commerce of the United States, the National Fire Waste Council, business and labor organizations, the churches and schools, civic groups, and the agencies of the press, the radio, and the motion picture industry throughout the county co-operate fully in the observance of Fire Prevention Week; and I direct that the appropriate agencies of the Federal Government likewise assist in arousing the public to the awareness of the dread threat

of fires.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington this third day of September in the year of our Lord nineteen hundred and forty-six, and of the Independence of the United States

of America the one hundred and seventy-first.

HARRY S. TRUMAN
By the president:
W. L. Clayton, acting Sec.

Ira King and two sons, Beach, Calif. visited here two weeks to help with the investment.

WATCH THIS CORNER

Dear Coop Members In This Area:

When your annual meeting is held, Saturday, Oct. 5, there must be nine board members elected—not just two. Twelve nominees were named so you would be given a chance to choose persons who will serve best for your co-operative.

It should always be remembered that board members, now serving, whether re-elected or not, have spent many hours in behalf of everyone who already enjoy electric service as well as others.

These men are doing everything possible to give you the most benefits they can achieve. In last issue of the Pilot, the statement concerning your vote was misleading. By-laws provide for only one director from each geographical location. Your nominating committee gave you a choice. They didn't, or couldn't, provide means to elect more than one director from each area—Brookings or Port Orford.

Remember, your local problems are brought before this board, one director is just as good as two—or a dozen, for your area. Don't waste your vote, unwittingly—please.
