Kitchen Hints

From MARY ANN JOHNSON

Don't be afraid to try again if you fail again and again; success is the result of perseverance and application.

A little boiling water added to an omelette as it thickens will present it from being tough.

Open canned fruit an hour or two before it is needed for use—it is far richer when the oxygen is thus restored to it.

A pinch of soda stirred into milk that is to be boiled will keep it from curdling.

TEEN TIME

BY You Guess Who

The reporters of "Teen Time" completely failed their mission this week, and even worse than that the only high school news that was turned in was entered by the Junior class and Joan Byrne, Larrie Robinson, the reporter for who is one of the Pilot's regular reporters. Can't you other guys tell the people what is going on up at school. Larrie has made a fine start, now get a move on you other three classes.

In a small town where everybody knows everybody else, so to speak, rumors are always flying thick and fast and someone is always saying this or that about someone, but remember that that is a sign that you are noticed no matter what you do, so don't take what you hear too seriously even when it's true.

Neiland Abbott has visitors from Nebraska.

Say! that dance last Saturday night was a humdinger, wasn't it? Now, if we had a teen age dance band it would improve the high school dances immensely. It'd be a lot of work but it would be worth it.

Would some of you girls that get around let me know if what I hear about Allaine E. is true?

The Serious Side

Oh my ship comes in, and my ship goes out, Through calm or fog or gale. So, my ship of life I shall turn about—

Come good, Come bad, She'll sail.
