## Members and Prospective Members of the COOS-CURRY ELECTRIC CO-OPERATIVE

Your co-operative is in the process of making a load survey in order to determine the present and future electric loads which it will be required to serve. This survey is being made by means of a survey sheet which has been mailed to all members on record at this time. It is extremely important that these survey sheets be returned immediately since they will govern the design and capacity of the lines now being constructed and those which will be constructed in the future to serve your needs. Your cooperation in returning these survey sheets is earnestly solicited. If you have not already filled in the required information please do so at once. DO IT NOW!

### INDUSTRIAL AND COMMERCIAL USERS!

All industrial or commercial consumers now using or contemplating the use of electric service from our lines are urged to immediately write the co-operative office at Coquille, advising us what equipment you are now using or contemplate using in the future, together with the rated capacity and estimated annual hours of use. There is a growing demand for electric power to serve sawmills, canneries, mines, loading docks, etc.

Our Sincere Thanks For Your Co-operation!
