Th younger the couple,
The tighter the squeeze.

SECOND GRADE

Kay Brooks, Barbara Guthrie,
Stanley Gribble, David Carlson,
and Richard Garvin have been
neither tardy nor absent since the
beginning of school.

We have made health posters,
showing good food and good
health rules.

Richard Garvin's mother has
brought some puzzles for our
room.

FIRST GRADE

Four boys and girls are absent
this week. This bad weather brings
colds with it.

Tuesday we drew and colored
pirtures of what we think our
Thanksgiving table will look like.

Donnie Metler, who left us to
enter the Medford school, is back
with us for a few days. We are
glad to have him.

Amateur boxes, interested in
entering the card, are asked to
get in touch with him.

'Personalized' GIFTS Are Best

Are you one of those people who hasn't as yet
solved his Christmas shopping problem?

With shortages of many suitable gifts just as
acute as ever, have you ever thought of giving
"personalized stationery" instead?

There never lived a person who wouldn't like
such a gift—in fact, many would prefer such a
remembrance from you.

Expensive? Why, certainly not!

Just received a shipment of boxed stationery
which you may obtain, already printed to order,
at slightly more than you'd pay, ordinarily, for
the boxed stationery at a book store.

To assure yourself of this service in plenty of
time before Christmas, why not come in at your
earliest convenience and place your order? Al-
low a week for delivery.

"Printed stationery" is an inducement to fre-
quent letter-writing, which many of your friends
may be neglecting. Certainly, such a gift would
work two ways for the donor.

Prices Start As Low As \$2.00 Per Box
