### FISHING SLUMPS HERE

Due to heavy storms and high water, fishing fans are just keeping a wistful eye on Floras Creek and Floras Lake. It is reported that Floras Creek has opened, just north of the Bunnap place, near where it was opened last year, therefore shortening the ideal trolling spot. The lake is of little hope for the lake, if the weather remains calm as many salmon have been seen jumping and working near inlets. One party was lucky enough to get hold of a silverside in the lake before the storm. Since trout season is closed, one must revert to salmon. Some good catches were reported on the Sixes river.

Additional Langlois on page twelve of this issue, remainder is held over until next week.

# 'Personalized' GIFTS Are Best

Are you one of those people who hasn't as yet solved his Christmas shopping problem?

With shortages of many suitable gifts just as acute as ever, have you ever thought of giving "personalized stationery" instead?

There never lived a person who wouldn't like such a gift—in fact, many would prefer such a remembrance from you.

Expensive? Why, certainly not!

Just received a shipment of boxed stationery which you may obtain, already printed to order, at slightly more than you'd pay, ordinarily, for the boxed stationery at a book store.

To assure yourself of this service in plenty of time before Christmas, why not come in at your earliest convenience and place your order? Allow a week for delivery.

"Printed stationery" is an inducement to frequent letter-writing, which many of your friends may be neglecting. Certainly, such a gift would work two ways for the donor.

Prices Start As Low As \$2.00 Per Box
