### A New Year's Resolution For "Good"

Many are thinking, even as early as now, about their New Year's resolutions, of the plans they have for the coming months of 1947.

If the Pilot may be permitted to offer a suggestion, it would like to remind everyone in this community about joining the Brookings-Harbor Chamber of Commerce—and that immediately.

How would you like to see this community be blessed with playground equipment at the schools? How much would you like to see this community be graced with a swimming pool? How would a few new industries fit into this community?

Pipe dreams, you say! Well, it may be dreaming in one sense of the word, but work with the local chamber of commerce might make these realization.

It takes money to get things done. Certainly a few men, donating heavily of their time and money cannot accompolish much, but many can.

Industries are seeking location in this community. These industries would "make" this community if certain ground-work is laid. It is up to the people living here, to get in the chamber and work.

### Shopping In Area For Christmas

People who have gone to larger cities for some of their Christmas shopping, have returned with a positive assertion that this area is "not just half bad" when it comes to finding goods for Christmas.

Local merchants have made a herculean effort to meet local public demands, and from appearances, have done a creditable job.

Purchases at home leaves that money here to work for the good of the community in months to come, and help to build for the future.
