

# START THE WHEELS ROLLING NOW!

**ALL ARE SPOKES  
IN THE WHEEL OF  
COMMUNITY  
PROGRESS!**

THE LIFEBLOOD of any community is the money being exchanged in that community, be it large or small, regardless of location.

NO COMMUNITY WILL ever "rise" to prominence unless there in co-operation in the community, among everyone, competitors or not. Each must contribute something toward the development of the area.

PAYROLLS, resulting from industry, go far toward building a community in payment of taxes, and profits which will be used in the community.

BEST ABLE TO DO THIS is the co-operation which is gained through membership in the Brookings-Harbor Chamber of Commerce, which organization ever is working for advancement of this community.

CONTINUATION of this advancement will be in di-

rect proportion to development of the local schools, which is the vital concern of the local unit of Parent-Teachers Association. Growth of schools attracts more home-seekers than any other single factor.

WEDNESDAY, JANUARY 29 is the next meeting date of the local chamber of commerce. Plan to be present with your membership fee, which will be used to foster better living for this area, to develop resources of the area, and to wage the battle for those measures vital to the future of the community.

OPPORTUNITIES ARE UNLIMITED here, but remain undeveloped. Your contribution to your own welfare, as well as to that of the community, will depend directly upon your work with these organizations which can use your help.
