Are They Going About It Correctly?

Quite a number of growers are making, or have made trips east with an idea of selling lilies to forcers for next year. It is the Pilot's quandary if such will pay off, either for the individual or the industry as a whole.

Here is how the Pilot reasons this: Growers have set up organizations, the Co-op, the Croft Lily Growers, the Pacific Bulb Growers, and such, to do this task for them, and cut out a lot of duplication of effort, as well as to stabilize the industry.

This is not any criticism on the part of the Pilot, it is merely asking a question. Perhaps the Pilot will be willing to "eat" these words, but it is not likely, because, knowing buyers, this style of marketing has never really paid any business.

One cannot find any excuses for opposing a community hall, or center for this area. The school houses are insufficient, no church has the facilities, and the Grange hall is simply too small, almost for the present Grange membership.

To bring this matter forcibly to attention of this community, the Chetco Rod & Gun Club is holding a meeting tonight at the

Do You Favor A Community Center?

Grange hall to bring out ideas from everyone and start action on such a project—immediately, if possible.

The rod and gun club is not sponsoring a community center. This club, all of the members progressive in every way, want only to see everyone interested in proposition to come out and express his opinion, no matter what that opinion may be.

As a method for financing such a project, the Pilot has a suggestion for consideration. This is not just a wild guess—it has been tried and proven, a number of times:

Arrive at some figure (or pick out what the community wants in a way of a building) get estimates from contractors and then everyone in the community buy as many \$50 non-interest-bearing bonds to cover cost of labor and part of the materials at least.

Properly managed, and with leases made on concessions, the liquidation of the indebtedness shouldn't take over five years, after which these bonds could be retired as rapidly as possible.

Ten years should close this financial venture with everything paid up. Rentals and concessions could be made pay well, if these concession include a roller skating rink, a bowling alley, and other such means of recreation.

New Crop Planning Should Be Done!

New crops for this area! That has become quite commonplace in talk, but not too much action has been taken by majority of the rural people of this area. Why?

Last week H. C. Leming pointed out that Gold Seal culture in this area would be profitable if people would only take hold of it. Something like nine or ten medical compounds are made from this plant and heretofore when it was gathered in the wild state, people made plenty money. That supply has become almost exhausted, so it must be grown through cultivation.

Berries of most all kinds, especially the cane type, such as raspberries, blackberries, loganberries, boysenberries, should be a profitable crop since freezing facilities already are in the community, and a market may be established within a 100-mile radius.

Along these same lines, peas should be profitable, since these may be handled frozen. How many have thought of endive?

Coming Events

Set Your Calendar By These—

Meeting of Board of Directors of Dist. No. 17 is the first Tuesday of each month, unless otherwise specified.

Every Monday evening, 7:30 Boy Scout meeting at Odd Fellows hall. Scouts urged to be present at all meetings.

Every first and third Wednesday of month, Post 966, Veterans of Foreign Wars and Auxiliary, at Odd Fellow Hall. All ex-service men welcome.

Sidney Croft Lodge, A. F. & A. M. meets each second and fourth Friday of the month at the Odd Fellows hall. Visiting Masons are welcome.

Every Thursday evening, I. O. O. F. meets at the Odd Fellows Hall. Visiting Odd Fellows are welcomed.

Cub Scouts meet every Monday at 4:00 p. m. at Mrs. Widney's home on Easy Street, and at Mrs. Taylor's home at Josephine Apts. Mrs. Leo Spangler will hold her den meetings at her apartment in the Vincent Building.

(All organizations are requested to keep the Pilot posted, concerning all coming meetings, that a date may be carried. Mail all information in, giving schedule).

Mr. and Mrs. Earl Carson, and Dr. and Mrs. Glen Moore left Tuesday in the Carson car, on a trip to Missouri where they will visit relatives which they haven't seen for many years.

Baptist Womans Circle Mrs. With Mrs. George

March meeting of the Community Baptist Womens Circle was held last week at the home of Mrs. George. The circle voted to contribute for the piano which is being purchased for the church. The April meeting will be held at the home of Mrs. Grant Powell, near the Winchuck. Mrs. George served refreshments following the meeting.

Local News Items

Mr. and Mrs. M. E. Dixon, who have just recently returned to this area from Glendale, Arizona where they had spent the winter, were called back there last week by the illness of her mother, whose chances of recovery are held unlikely. Mrs. Frazier, her sister, is already there.

Mr. and Mrs. Milton Foster

who recently moved from Harbor area, to a farm Crescent City, were given a warming by a number of couples were present.

Al Monner, feature photographer for the Oregon Journal, and a former associate of Ralph Vincent on that station, and his family and mother, stopped here last night to visit Mr. and Mrs. cent. They were en route to Angeles, and Death Valley.

The Satellite club met at the home of Mrs. Perkins, at Harbor. Not used today, at many are articles much needed by one else. Help relieve them by selling these items through columns of Pilot Classified. Meet your buyer quickly these columns. By, sell, tell your needs.

GLADIOLUS BULBS

The gladiolus is the most used flower in America today. Its beauty is unsurpassed by any bulb flower. Far easier to grow than lilies. Air transportation will open up markets for the high quality gladiolus blooms found on the west coast at seasons when quality blooms are not available from other parts of the United States. Get a good start of a few good shipping varieties now and have stock built up so that you may take advantage of the coming opportunity. Don't wait till the boom is on and pay outrageous prices for planting stock. Remember, pinks, creams and whites make up over 75% of all gladiolus flowers used by florists.

Variety and Color	Small Bulbs (No. per quart)	Price per quart
MYRNA, ruffled cream white	12	\$12.00
PICARDY, popular salmon pink	12	\$10.00
BEACON, scarlet with cream throat	12	\$10.00
SNOW PRINCESS, large white	12	\$12.00
KASSEL, clear tall red	12	\$10.00
JEANIE, large beautiful pink	12	\$12.00
SHIRLEY TEMPLE, ruffled cream	12	\$10.00
GOLDEN CUP, fine clear yellow	12	\$10.00
KING LEAR, ruffled purple	12	\$12.00
MIXED, all colors	12	\$10.00

These small bulbs will bloom this year, produce commercial bulbs and produce several quarts of bulblets per quart of sand under good growing conditions. Bulblets of the above varieties sell for eight dollars per quart of approximately four thousand. Large bulbs sell for a dollar per dozen all colors. No order accepted for less than \$5. Planting instructions with order. Terms: one-half cash with order balance sent C. O. D.
