

Curry Offers Much-Even 36 Years Ago

Continued from Page One

state, county, nation or the world of such wealth, and not only this in and by which our mining and mining and every other industry is badly crippled. If I should even offer a prayer from the very depth of my heart, it would be God Almighty pity and pardon the oppressors and have mercy on the oppressed. For such things are only making lawbreakers, for as it is we cannot get a salmon to eat without being a law-breaker.

Think of the wealth in this alone, and it will all but stagger one, yet this is small when we know of the mineral wealth in copper, iron, tin, gold, silver, platinum, iridium, cobalt, nickel, coal, building stone, fire clay, asbestos, lead and chrome. Much of these in seemingly endless quantities. I have been in nearly all of the mining camps in the United States from Lake Superior west except some of the newer camps and I can say without fear of successful contradiction that Curry County has larger and richer ore bodies than any place I have seen, and yet they are lying idle because of lack of transportation, and from lack of proper recognition by the entire state, as well as by the United States.

If we had a jetty at the mouth of the Rogue River, we would have a harbor equal to or better than many used now extensively on our coast. If we had this recognition, our lumbering interests would be great, as well as to cause development of our mineral resources. If we had the harbor—they might kill our fishing at present, our only commercial interests of any magnitude—we would soon develop one of the greatest wealth-producing districts in our great nation. This I have taken up with our representatives in Congress and our senators with a great prospect of something being done, and when this is accomplished you will hear of a county being developed with a rapidity never before heard of. Why?

Because of our climate, water powers, timber and mineral resources and our proximity to the Pacific ocean, whereby having the cheapest transportation known to man, our county puts me in the mind of a story of Daniel Webster, who was banished from his home, the reason why I need not state today, only that he was

banished, and went into mountains, aided by a friend. He went to delving into the mines of love and soon developed into one of our greatest men. Methinks I can see his brother-in-law upon his bended knees, begging forgiveness while the tears were streaming down his cheeks. So, like Webster, we will go into the mountains and there develop the greatest county in the state of Oregon, which is yet to become the greatest state in the union, then our oppressors will come to their knees in humble contrition begging forgiveness. When we have ships leaving our harbor daily, laden with copper, iron, tin, coal, lumber and other precious metals, we will then come into our own and receive the recognition due us. Then will the people of Oregon wonder why they never heeded the pleadings of your humble speaker and the others who know the wealth of our county. Yes, then they will stand aghast with mouths wide open, but speechless for lack of words to express their surprise; yes, just like the people of the earth upon the completion of the Panama Canal, when they see Oregon growing as no other state has ever grown. Why? Because here will be the commercial center of the earth as well as of civilization, and, over and above all, the greatest financial center of the world, as James G. Blaine once said. When this thing comes the people will see such colossal pyramids of wealth go up as the civilized nations of the earth never heard or dreamed of. Then will it not only become the center of civilization, but the money center of the world. Why?

Let me repeat, because when the commerce of three-fourths of the earth's population begins to move to the Pacific coast, our trains will not come west empty to meet the incoming freight, but will carry everything raised or manufactured in the east to our shores. Then you will see wealth piled up as never witnessed in any county on the fact of the earth. Again, why? Because of our location, our climatic conditions, health, water and air unsurpassed by any spot on the earth's surface. Then will Curry County, with her mineral wealth, her timber, building material, her climate and her harbor of refuge on the Pacific ocean, for this is the grandest country on the globe, and located at Port Orford, in Curry County, it will be, we shall sing the miner's glad refrain, no vetoes for his work to the world is gain.

The miner's trade is one of

all wealth, he give the money to pay for health, he's partner with all men and earth; he comforts by the wayside and health; he Concluded on page seven.

Justice Court

- Jessie W. Haglan, no operators license.
- Don P. Haight, no clearance light.
- Robert Yarbrough, no PUC permit.
- N. G. Abbott, defective muffler.
- James N. Schrader, no operators license.
- Hanna Wilson, no clearance lights.
- Olive E. Norris, no operators license.
- Harold Gardner, netting fish in a closed stream, now serving his sentence.
- Irene F. Lenz, violating basic rule.
- William Long, insufficient clearance.
- Robert Tolman, for selling a game fish.
- John Walden, exceeding permissible length.
- Elmer Gardner, possession of underage deer.
- Ernest Gardner, possession of parts of underage deer.
- Eddie Freeman, no chauffeur's licence. Trial set for March 17.
- Robert Tollman, possession of deer meat.

W. W. Rutherford Steals "A March"

Friends of W. W. Rutherford just were taken in when, this week, it was learned that on Tuesday of last week, he claimed Mrs. Helen Baker, of Reedsport, as his bride. The vows were read by Rex Strevoy, elder of the Seventh Day Adventist church, at Gold Beach.

The couple is making their home at the Rutherford place here, which was recently remodeled considerably by Mr. Rutherford.

White Rock Bills 1947 Opening On April 1st

White Rock Cottages, dining Room and Cocktail Lounge will mark their 1947 opening on April

1. says an announcement where in this issue. In informing the Pilot of news, Mr. and Mrs. Sanders that Mrs. C. I. Patrick will be in charge of the dining of this popular resort from opening.

As last year, this dining caters especially to dinner parties, Sunday and special
