A benefit dance will be held at the high school gym, April 5, for Dick Hofsess, who was injured last August when he was flagging traffic at the scene of an auto accident on the highway at the Cadman ranch, north of Langlois. He received a broken leg and it has been in a cast since that time. Dick is an overseas veteran of the late war.

The Junior-Senior prom, which was held at the high school gym Saturday night, attracted a large crowd, and was reported to be a great success. The Juniors are due compliments on the decorating, especially the wishing well, which attracted many. Judging from the success of the dance, the high school should sponsor more entertainments.

PHONE LINES ARE BUSIEST

DURING THESE HOURS

AVOID PEAK PERIODS TO GET BETTER SERVICE

Telephone calling is still at an all-time high and we are handling nearly twice as many calls as in 1941—and with essentially the same equipment. These calls tend to pile up in "peaks," at which times our busy lines are more crowded than ever. These peak periods are:

9:30 TO 11 IN THE MORNING

2 TO 4 IN THE AFTERNOON

May we make a suggestion which may improve your own telephone service? If you will do as much of your telephoning as is conveniently possible during the non-peak hours, you probably will get faster, more efficient service.

We are carrying forward our Five and One-Half Million Dollar expansion program as rapidly as we can secure materials from our manufacturers, and we will continue to improve and enlarge our facilities until we once again can provide the finest service in the United States. Meanwhile, we sincerely appreciate your continued cooperation and support.
