### BEFORE WE HAVE ENOUGH EQUIPMENT TO GO AROUND

Long ago, like the proverbial early bird, we placed orders for enough telephone equipment to provide service for every subscriber who desires it.

We have installed quite a bit of it, too. In the past twelve months we added more telephones and more miles of toll line than in any similar period in our history.

We are doing everything in our power to speed this flow of materials, and we will continue to improve our service until it is once again the finest in America.

There's still a long line waiting for telephones, and we are filling these orders as rapidly as we can receive the tremendous quantities of wire, cable, switchboards and many other types of equipment necessary to supply all the demands of this rapidly growing area.
