to Malone, Wash., last week to
attend the funeral of her uncle.
En route home this week she is
visiting her son and family at
Portland. Bob takes unusual in-
terest in the Rotary luncheons,
as he says he's a terrible cook.

Chris Brown, son of Mr. and
Mrs. Ira Brown, now enrolled at
Hill Military Academy, Portland,
is making rapid strides in his
subjects, his parents report. He
is trying to make up a few sub-
jects with hopes of entering the
local high school this fall.

People of this area who knew
him from his frequent visits to
this area, will be saddened to
learn of the death of Ralph Gif-
ford, official photographer for the
state of Oregon. A heart attack
claimed his life, while on an of-
ficial trip in eastern Oregon.

Archie Hendricks, of Hendricks
Furniture Co., returned Friday
from a week's buying trip to
Portland.

Bill Barton is wearing a splint
these days to support his right
hand which was badly crushed,
under a log while working as
off bearer on the main saw at
mill last Saturday. While none
of the bones were broken, it will
be some time before he will be
able to use his hand.

E. V. Hawley arrived from

Santa Clara last week and is
visiting at the A. H. Newton res-
idence this week. His wife has
been here for some time visiting
the Newtons, and she will ac-
company him when he returns
to Santa Clara.

Homer Kessler left Monday to
visit several towns in Washing-
ton on business. He is expected
back by the end of this week.

Mr. and Mrs. Glenn Sumner
have visitors from Burden, Kans.,
this week. Mr. and Mrs. Cecil
James, Juanita and Markey, Ce-
cil Hart, and Glenn Willard ac-

companied Patty Sumner
to Brookings. Mr. James
Sumner's brother and Mrs.
is Mr. Sumner's sister. Also
related to Mrs. Roy of Brookings.

Be Modern and Irrigate By SPRINKLING

In the last few years there has been a tremendous increase
in the use of sprinklers for orchard and field irrigation. Cost
of water and the low prices for fruit have been some of the
contributing factors. Properly installed sprinkler systems re-
quire far less attention, do the job better with less waste of
water and with far less labor. Think what your crop had been
during the recent drouth had you been prepared.

The last word in sprinkler performance, no finer made for
overhead irrigation, can be found than BROWNING GEARED
SPRINKLERS, No. 10, with single or double nozzle.

System Pays For Itself Rapidly

You may think you do not have an irrigation problem
here on the coast. This belief has been proven to be wrong
even during years of so-called normal rainfall. Everywhere
sprinkling systems have been installed, accurate accounts re-
veal that their cost has been quickly forgotten by the increased
yields of better crops. Please let us show you how this can
be done. That will cost you nothing, nor will it obligate you.

Let Us Explain Advantages

BUY A BROWNING SPRINKLER SYSTEM for your
lily field, and be assured of better grade and size bulbs. If
you feature other type of crops, again you will find that
irrigation pays dividends far in excess of the cost of the ir-
rigation system. Nothing would delight us more than to show
you all the details of how, and why.

We have a full line coming, and will demonstrate these soon!
