

Letter From Washington

Harris Ellsworth

... of the formal end session of congress has determined as this is a session of congress just end automatically. Action is required by Business of the session be terminated by adjournment called adjournment. If the session is thus convened during this calendar if the president calls session. If no such call congress will assemble January 3, 1948, when the session of the 80th congress will begin. This procedure January 3rd date constitutional provisions congress.

... resolution of both houses, congress may do as has been several times during recent simply declare itself in until later in the year. resolution would provide congress could be called active session at any the leadership of both

... session adjourns sine a special session is called the president, members paid their travel expenses and from Washington special session. If a resolution, members will own travel costs.

... were not for the situation there would be little of a session of congress. Unfortunately, it seems the war-torn countries are regaining their ability to themselves and reach a peace time status.

... a little more time will economic and social dispelled or whether this may deem it necessary Europe further remains. The so-called Marshall contemplates the necessity giving further aid.

... president decides that shall plan is necessary, plan cannot be put into until it is approved by and until congress has money for it. So, if president considers the plan necessary but urgent immediately needed, congress meet again this year.

... bills and other business in congress now will pending when the next begins. Any bills almost consideration now may for early action next

... while, a special committee members of the house into action to take an first to find out just we can dole out to others before endangering economy and our own strength; and second, to how much or rather how actually needed to start of normal commerce, and agriculture in Eu-

... committee will also be to report to the president to congress its suggestions to just what we should of greatest aid to the now in distress.

... now in the midst of minute rush of business session ends. My committee has been meeting at 9 day. The house, which meets at noon, has this been convening at 10 and I have had practically in my office in the day-nearly two weeks, but will soon be over.

With The Churches

Baptist Community
O. C. Turley, Music Director
Sunday School, at 9:45 a. m.
Walter S. Jones, Supt. Classes for all ages.

We have spoken of sin as man's will in confice with the will of God and all men are sinners, and law says the soul that sinneth it shall die, but Jesus took our sins upon himself and carried them to the cross. Whosoever accepts of His sacrifice is saved from his or her sin. God has said in His word I will not anyone should perish but come unto Me and live. There is only one thing that will keep you out of heaven and that is your own will. God has set before man life or death, but has said we should choose life. Come and learn the way of life.

Christian Science Society
Services Sunday at 11 a. m. at the I. O. O. F. hall. The public is cordially invited to attend.

"Love" is the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 3.

The golden text is "Let him that glorieth in this, that he understandeth and knoweth me, that I am the Lord which exercise loving-kindness, judgment, and righteousness, in the earth"—(Jer. 9:24).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "God is love; and he that dwelleth in love dwelleth in God, and God in him." (I John 4:16), together with the following correlative passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "God is love. More than this we cannot ask, higher we cannot look, farther we cannot go (p. 6).

Smokey, The Fire-Preventin' Bear, Turns Detective in:

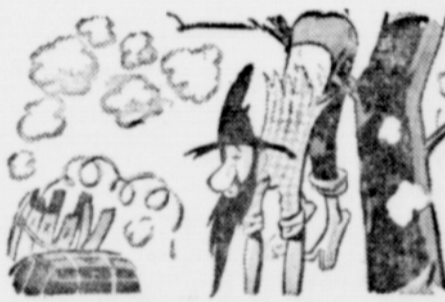

"The case of the missing forest wrecker"

Smokey decided to find out who starts the most forest fires. First he tracked down old man Lightning. But lightning and other natural causes start less than 10% of the fires.

Next he turned to criminals, or crazy firebugs. But although these people start some of the worst forest fires, Smokey didn't get the final answer here. So . . .

. . . Smokey investigated other things—explosions, auto accidents where cars catch on fire, and sparks from trains. But all of these lumped together don't start one fire in a hundred.

That eliminated all suspects except . . . except . . . could that be right? Yes, good American citizens like you start 9 out of 10 forest fires! And do the big damage to our forests!

PLEASE FOLKS, BE EXTRA CAREFUL THIS YEAR!

1. Hold your match till it's cold—then pinch it to make sure.
2. Crush out your cigarette, cigar, pipe ashes. Use an ashtray! Never throw burning objects from a car window.
3. Drawn your campfire, then stir and drawn again.
4. Ask about the law—and a permit—before burning grass, brush, fence rows, or trash. Then follow safe rules: burn only on still evenings; have help handy; kill every spark!

This year—with more cars, more leisure time, and more vacation travel—America's forests may suffer the greatest catastrophe in history! It is imperative that you be particularly careful with fire. America's forests are in your hands.
