Huffman arrived from Calif. for another load of goods. He reported an accident, reported last as result of a truck and trailer passing the Huffman car on a bridge and meeting another car coming the opposite way. Mr. Huffman is in a serious condition, having suffered a skull fracture, as well as fractured shoulder, leg fracture and injury to his spine. He was thrown from the car, landing on the concrete railing several feet from the car. Mrs. Huffman's shoulder was injured but she did not require hospitalization, but their daughter, Linda, had three bad cuts on her head, a skull fracture, and a crushed foot, which is in a cast. Mr. Huffman will have to remain in the hospital for some time as he is in a cast, and it may be a year before he is able to work again.
