Curry Co. Share of Federal Budget

Oregon's per capita share of the requested \$39,669,000,000 budget for cost of Federal govern-

ment for fiscal 1949, now before Congress, is \$366,852,820, or \$276.66 for each man, woman and child in Oregon, according to 1945 Oregon population estimate of 1,362,066, and 143,382,000 United States population.

A breakdown of this state's per capita portion of the proposed Federal government cost for year ending June 30, 1949, shows that Curry county's share will be \$838,280.

These figures have been released by Oregon Business & Tax Research Inc.

On basis of 1947 federal taxes paid in Oregon, the state's pro rata portion of the requested 1949 federal budget, is about \$337,000,000, according to figures supplied state taxpayer associations by Senator Styles Bridges, (R.-N.H.) chairman of the Senate purse-strings appropriations committee of which Senator Guy Cordon is a member according to the tax research organization. This is at rate of \$247.41 per Oregon inhabitant.

For each \$1 of state taxes collected during 1947, \$4.50 will be spent as Oregon's share of the proposed 1949 cost of federal government, according to Senator Bridges analysis.

Oregon's per capita share of the proposed 1949 spending budget, or \$366,852,000, is a little more than one-quarter of the state's assessed valuation, and total proposed budget is equal to one-fourth of the 1946 national income, Oregon Business & Tax Research pointed out.

"This tremendous burden on Oregon taxpayers, and everyone is a taxpayer to the federal government, is reflected in cost of food we buy, clothing we wear, cigarettes we smoke, where there is a 7 cent 'hidden tax' per package", F. H. Young, manager of the tax research organization said.

"Naturally we can't expect to trim federal spending to a pre-war level. But certainly there are many places where substantial sums can be saved. We need to reduce federal payrolls. Overlapping and duplicating federal agencies can be trimmed, and obsolete and unnecessary federal bureaus eliminated".

Even if everyone didn't appreciate the two days without mail service when Washington's birthday was celebrated on Monday, after falling on Sunday, the local postoffice staffs more than made up for the holiday on Tuesday. Besides the three days regular mail to be handled, the Montgomery Ward and Sear Roebuck catalogues made their appearance also on that day, with about fifty sacks of "wish books" for Brookings and twenty-five for Harbor. When it is realized that each sack weighed from 65 to 72 pounds, there were some weary postoffice employees Tuesday night.
