Services Sunday at 11 a. m. at

I. O. O. F. hall. The public is

welcome.

"Christian Science" is the sub-

ject of the Lesson-Sermon in all

churches of Christ, Scientist, on

Friday, June 27.

The golden text is, "O house of

David, come ye, and let us walk

in the light of the Lord" (Isa.

60:1).

Among the citations which

prise the Lesson-Sermon is

the following from the Bible:

"The Lord, and his strength:

seek his face evermore" (Ps. 105:4), together with the following correlative passage from the Christian Science textbook, Science and Health with Key to the Scriptures, by Mary Baker Eddy: "Christ's Christianity is the chain of scientific being reappearing in all ages, maintaining its obvious correspondence with the Scriptures and uniting all periods in the design of God" (p. 271).

"Last Man's Club" Being Organized By V. F. W. Post

A "Last Man's Club" got off to a good start in the local V. F. W. post with Roy Stephenson being named president and Les Ray scribe. Membership is restricted to the V. F. W., and the roll will be open for a comparatively short time, and then permanently closed.

The vets plan an annual get-together conducted on the lines of a convivial re-union with an appropriate prize package in evidence which will go to the last survivor of the group.

At their annual banquet, Last Man's Club sets places for all their members on record. Those who have passed on are remembered by the chairs being turned toward the table. Milton Foster, a local World War 1 veteran is a member of the Medford club of 116, none of the living of which ever miss the annual meeting and blowout.

Townies Will Play Crescent City, Sun.

The hard-hitting Brookings Townies are scheduled to play the Crescent City Seagulls at the Brookings Hi field, Sunday afternoon at 2:30. Although the townies have hot and cold all season, this game promises to be a big thriller and Pete Lesmeister, local manager, states, that if he has Whitey Matson pitching, the score might be long in favor of the townies.

To keep baseball alive in this area everyone is urged to come out Sunday and support the local team.

Brookings will travel to Rogue

River, July 4, for the next game.

Baseball practice is held every Tuesday and Thursday afternoons at 6:00.

Mr. and Mrs. B. W. Marsh Honored On Sunday Eve Party

Mr. and Mrs. B. W. Marsh attended, Sunday, what they supposed was to be a father's day program at the Adventist church. Upon entering they found the place appropriately decorated for the occasion with many intimate friends gathered to pay homage to them on their golden wedding anniversary.

A program of music and readings was enjoyed. Among the many presents was a small evergreen tree, hung with golden bells. In each bell was a silver coin.

There was a large wedding cake covered with rose buds in the center of a lace-covered table, back of which was a large copper bowl of daisies, and on each side copper candlesticks held green lighted candles. Ice cream and crushed strawberries were served by the fathers of the church. The honored couple was showered with many best wishes for more years of happiness and good health.

I WRITE as I See It!

BARTON W. MARSH

A few moments spent in consideration of the general trend of human thought and conduct are sufficient to start chills of horror and fear chasing up and down the spine of any thoughtful person.

These are not ordinary times. In fact these times are ultra-extraordinary. Seldom has the world been confronted by such masses of complex problems as now seem to be rising up in every quarter of the globe. Without doubt, that which most nearly parallels our times and situation is the flood that destroyed the antediluvian race.

At this moment the larger portion of the income of nations of earth is being employed, in what seems to be a hopeless attempt to restore and rehabilitate the multi-millions that have been brought to ruin and starvation by the hate, greed and rage of war.

Since cessation of active war the government of the United States has spent or is about to spend more than twenty-three thousand million dollars in its effort to restore peace and plenty to the homeless, starving millions it so recently helped to destroy. Paradoxical as it is, at this same time our government is spending other thousands of millions in feverish preparation for war in which we plan to more completely and effectively destroy that which we are now engaged in seeking to build up and restore. Is it possible that our right hand does not know what our left hand is doing.

As an infinite and all-wise God looks upon the condition into which mankind has maneuvered itself what hope can He see in letting it continue longer. Many earnest, sober people believe the Lord is soon to lift His hand and bring to an end this earth destroying affliction.

"And the nations were angry, and thy wrath is come, and the time of the dead that they should

be judged and that thou shouldst give reward unto thy servants, and to the saints, and them that fear thy name: 'And thou shouldst destroy them which destroy the earth.' " Rev. 11:18.

"And there shall be signs in the sun, and in the moon and in the stars, and upon the earth distress of nations with perplexity, the sea and waves roaring. Men's hearts failing them for fear, and for looking after those things which are coming on the earth: for the powers of heaven shall be shaken. And then shall they see the Son of man coming in a cloud with power and great glory." Luke 21:25-27.

VETERAN PICNIC PLANNED JULY 11

Further Details Will Be Announced Later

The "First Trial Annual Picnic," of veterans and their families is in the making and further announcement will be made as soon as the committees get to functioning. Sponsored by the local Veterans of Foreign Wars Post and Auxiliary, tentative plans call for making the affair just as close to what the participants want as possible, with games and

other form of entertainment the committees work out to which must be added some ingenuity on the part of picnickers themselves.

Those planning the affair are quite open in stating the primary purpose of the event is to get acquainted and wash out any possible line which some might feel divides the natives from the newcomers. Also an effort is going to be made to revive interest in the V. F. W. building program which the veterans set to one side when plans seemingly of more benefit to the community were given priority.

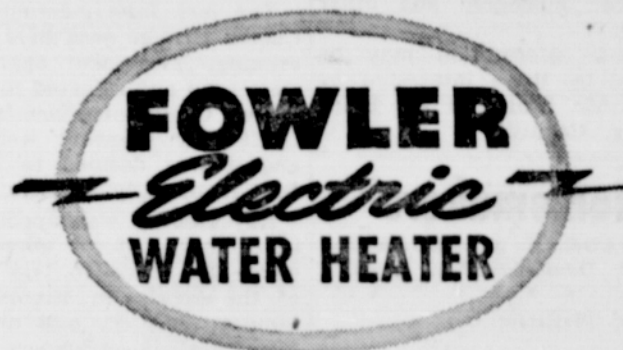

In their present state the locals hope to attract to the picnic visitors from both Del Norte and Curry counties—the veterans themselves, wives, kids and other kin. The date has been decided for Sunday, July 11.

Tentative committees have been named, and further information will be forthcoming.

Rat Control Data Will Come From Co. Agent

According to word from the county agent's office, information concerning the planned "rat control" program will be published locally through the Pilot.

This drive, international in its scope, is to reduce the enormous losses suffered through this pest.
