WEDNESDAY'S RAINS DAMAGE CROPS

Grain and Fruit Crops Hard Hit By Rains

Grain, as well as other fruit crops, suffered untold damage in Grants Pass-Medford-Ashland area, Sunday, said Howard James in an interview with the Pilot.

Mr. and Mrs. James, and chil-

dren and Marilyn Struebing went to Medford, early Sunday morning to visit relatives. Beginning shortly afternoon, he said, rain fell in torrents, and mixed with it was a large amount of sleet, which hit the pears hard.

"I don't believe I ever saw larger raindrops," Mr. James asserted. "The road between Medford and Grants Pass was over an inch deep with water, it fell so fast."

The rain did not seem to be general, Sunday, for out of Grants Pass toward the California line the rain did not fall until later in the evening, coming, apparently westward toward the coast.

Several hundred picnickers and campers were caught out late Sunday when a sunny day suddenly changed to rain.

Chetco Library Had Good First Year

Now that the Chetco Community Library is closing its first year of service in this district, it seems fitting to publicly recognize and thank all those who have contributed to the success of the project sponsored by the Harbor Community club.

The success of the library can be attributed to the generosity of public-spirited citizens who made the room available, furnished time, and material for cases, and to those individuals and organizations who gave so many books, and time.

The number of books has been built up from a few to nearly 500 accessioned copies, with a lot more on order.

The Harbor Community club feels that much success goes to the state library, which willingly supplied such fine groups of books often requested to supplement those of its own.

The club misses the guiding

hand of Miss Mary Cavitt, former club member, who through her untiring efforts and knowledge of library work, gave great assistance in establishing the local library.

From time to time more information will be given concerning the workings of the library.
