

### "Homemakers"

By ALDENE N. ROBERTS  
Home Demonstration Agent

HELLO, THERE:

Do you know about the two events that are of vital interest to every Curry county-ite during the coming month?

If not, here they are: First, The Curry county hospital association membership drive, Aug. 24-25; and Second, The Curry county free fair, September 3 and 5.

You've heard about each of these—you couldn't have avoided it—but perhaps, you haven't realized their importance to you and your family. This hospital, for instance—it's life insurance for you and yours—not the kind of life insurance that gives money to the family after death of an individual—rather a life insurance that gives life to the sick and injured. By contributing time, energy and money to

building a hospital for Curry county. You are giving life to a friend, a neighbor, a loved one—perhaps to yourself.

The Curry county fair (yes, I said free) is going to be bigger and better this year. No admission to the exhibits, a rodeo, the horse show, ball games, dances and demonstration contests. Better keep your ear to the ground for more details about these two coming events.

Those garden meetings last week were very good, although not so well attended as I had hoped they would be. If everyone there learned as much as your home demonstration agent did, the meetings were certainly well worthwhile.

We made several home visits to plan landscaping projects for the coming year. If you are planning to do more landscaping at your home, perhaps it would be a good community demonstration project, showing what can be done with native flowers and

shrubs. We will be interested in working with you if you will only write to us.

We had another footstool work shop last week, too. There were nine footstools made and professional looking jobs, they were too. That makes nearly 100 footstools upholstered in the county the past year. Next on our schedule is the repair of inner-spring cushions and the making of slip covers. That will be this winter. In the meantime, I'll see you at the county fair, Sept. 3, 4 and 5

## GIANT STEPS are being taken

American telephone service today is rapidly expanding. Local and long distance telephone traffic is at its peak. A constantly increasing number of new telephones are being installed — switchboard facilities expanded — new equipment added.

In spite of this enormous progress, however, some people are still waiting for service. This is caused by a combination of still existing material shortages and an increasing demand for telephone service.

But we hope that the giant strides being taken today will soon overcome every obstacle, and everyone desiring service will have it soon.
