

## A Buffalo Going Into the Oil Business

PORT ARTHUR, TEXAS—Passing the camera like a black streak, this young buffalo bull charges from an unloading chute into grounds of the Gulf Oil refinery. He is one of six bison "employed"—probably for the first time in oil industry history—to crop grass around tanks and pipelines. These one-time "kings of the prairie", along with 100 odd Brahma cattle, cows and horses, are being pastured for neighboring ranchers on refinery property, where they save many thousands of dollars in grass cutting bills. But they make risky charges for any but experienced cowhands like B. V. "Bart" Ownby, mounted.
