Local Quintet of Boy Scouts Achieved "Coveted" Honors

Reading, left to right: Ronald Akers, Bob Shipley, Jimmy Vincent, Bill Shipley and Jimmy Lytle. These boys have set something of a record, for few are the troops having this many receiving this badge at the same time. Likewise it is seldom that brothers receive eagle badges at the same time. Two more boys, Glenn Orton and Bob Garrard, who became first class scouts at the same time, and who followed along for a time, moved away, thus unable to receive eagle rating at same court of honor.

Crab Fishing Ban By Commission

PORTLAND — In accordance with provisions of General Order No. 5, the fish commission announced early this week that notice is hereby given to fishermen and industry that re-examinations of the condition of crabs in the off-shore waters of Oregon disclosed that the percentage of the soft-shell crabs in one of the two areas on the coast, namely, Area 1, is now in excess of 10%.

In the above mentioned order, the commission designated and designated Area 1 as "all waters of the Pacific ocean lying off or adjacent to the coast of Oregon, northerly of a line projected west from the highest point of Cascade Head."

Over 10% of the crab in this area are found to be soft-shell. The fish commission officials announced that a closed season is hereby invoked for commercial crab fishing, effective on October 10.

The closed area will be in full effect until it is found by the commission that the percentage of soft shell crabs has decreased to less than 10%.

In this condition of crabs has been determined, notice will be given to the fishermen and the commission will set the reopening date for the area, to be effective a few weeks from date of the announcement.

Satellite Chapter Enjoys Comic Program, Tues.

Satellite chapter, O. E. S., met Sept. 21 at the Odd Fellows hall in regular session. Following the business meeting, Rose Hubbard was in charge of a comic program, much appreciated by the group present. The next meeting will be held October 5, with all Eastern Star members invited. Regular meetings of the chapter are held at the Odd Fellows hall, first and third Tuesdays of each month. Lillian Weideman is worthy matron and Charles E. Low, worthy patron.

G. Milford Shows Pictures Of Dam To Rotary Club

A sound motion picture, depicting hydro-electric power, its beginning to ultimate distribution, was shown, Tuesday at the Rotary luncheon by G. R. Milford of the Red Bluff, Calif., club, residing at Rivers End. Also on the program was a motion picture of the 1948 Lily parade in Brookings, taken by 20th Century Co.

In the picture on hydro-electric power, the beginning showed how dams were planned, how the contours of land were fully utilized in obtaining the power from the water, and how electricity was generated.

Interesting was the section concerning management of the generator plans, how the load of current was kept constant and how the complex network of lines were managed.

The hydro-electric projects of this picture were works of the engineering ability of Mr. Milford, who was for years connected with the Pacific Gas & Electric Co.

The motion picture of the Lily parade was taken by Mr. Emory, from the vantage point near the

Ellsworth Will Be Here, October 8th

Harris Ellsworth, congressman of the Fourth District, of Roseburg, wrote the Pilot Tuesday that his itinerary would include Curry county, October 8 and 9, and the only appearance he had

COMING TO BROOKINGS

Harris Ellsworth, congressman of the Fourth District, who will be in Curry county, Oct. 8 and 9.

scheduled in Brookings was at a luncheon meeting of the local chamber of commerce, Oct. 8.

An untiring worker for the district he represents, Mr. Ellsworth is member of the committee on interstate and foreign commerce in congress.

Mr. Ellsworth believes in giving his constituents all the news, and weekly, while congress is in session, writes a column, which has appeared in the Pilot.

Several visiting Rotarians, one from Salem, and two from California clubs, were present.

ENROLLMENT CROWDS ALL ROOMS TO START 1948-1949 SCHOOL YEAR

Each Grade And High School Class Reached New All-Time Record For District No. 17

With 31 more students in the local grade school than on the opening day, and with seven additional ones in high school, the Brookings schools faces its most trying year in relation to the rooms, and "teacher-load," according to word from Lynn O. Hampton, superintendent, Monday evening.

To add to this confusion, six more high school students are expected to enroll within a short time, increasing the high school enrollment to past 100 mark. All these students are employed at the present time.

Figures released by the principal, according to grade are:

Grade	1947	1948
First	18	40
Second	29	20
Third	29	29
Fourth	32	29
Fifth	18	36
Sixth	23	20
Seventh	21	21
Eighth	24	20
Total, grade	194	225
.....		
Ninth	29	29
Tenth	24	24
Eleventh	19	23
Twelfth	16	19
Total, H. S.	88	95

Last year's first grade, in the second this year, jumped from 18 to 20; the next grade remained the same; but the biggest showing was the enrollment of the first grade—40, which is a record for this school.

A study of the figures released by Mr. Hampton, shows that all grades gained some except the present eighth grade, which lost one from last year.

By Tuesday morning, after a number of hours toil on the part of the faculty, school got under way with most of the conflicts in schedule ironed out, so that

Mrs. Joe Bush Will Speak, Smith River

Mrs. Joe Bush, of Harbor, noted in reclamation circles in her former state of Arizona, will be featured speaker, tomorrow, Friday, Oct. 1, at Smith River Women's club meeting, set for 2:30 at the Community hall.

The second meeting of the club year, this meeting will also feature special music, according to Mrs. Eunice Faris, president.

A special appeal is made to all members to be present at this time, as they are promised a real treat in way of a program. Copy for the yearbooks has been given to the printer, and these are expected before the next meeting.

Dr. and Mrs. Guy Rice made a trip to Palo Alto, Calif., to take Mrs. Rice's daughter, Miss Nancy Stone, to Stanford University, where she registered as a freshman for fall term.

all students may meet the graduation requirements.

However, in the grade school, two "bad spots" appear, with 40 beginners and 36 fifth graders. This week, Mrs. DeMoss has all her "flock" seated at tables and is doing her "best" with them.

Adjustment will, of natural course, be worked out in the next few days to lighten the load in these two abnormal classes.

In the high school, switch in the original planned schedules, has changed some of the conflicts, so that class groups may be kept somewhat together.

BOY SCOUTS TO RESUME MEETINGS AFTER VACATION

Many Scouts Wish To Change Meeting Date To Monday Evenings

Inactive most of the time since the summer camp, held up the Rogue river, late in July, Troop 32, Boy Scouts of America, will meet at the basement of Baptist Community church tonight in the first fall meeting. Jerry Kelleher, new scout master, will take over his duties.

Starting, probably next week, meeting dates will be changed back to Monday night, by popular demand of the individuals, who showed a decided preference for that evening.

Each scout promised his new scoutmaster that he would tell all scouts, and would try to enlist a new boy in the program.

The newly-made eagle scouts will be, under the new program, be given places of trust in the troop management. Upon their shoulders will fall much of the instruction work for all scouts of lower rank, especially those just beginning the scout work.

Wants To Build Scout "Shack"

Jerry Kelleher, who had three years experience as a scout, has already expressed a desire to build a scout "shack" up the Chetco somewhere, where the lads may put to practice some of the teachings of scoutcraft, and where they boys may plan week-end camping trips.

Contact has been made with John Porisch for his assistance in the project, so he may grant permission for a site, not to detract from the general scenery. The lads want his assistance in choosing logs for the construction, if permission is granted.

Emphasized Scout Movement Among the 65 requirements of the state board of education set out for the local district to emphasize, was the scout movement of the district. The state has put a definite value to the teachings offered through this medium.

Realty Transfers

Mr. and Mrs. James R. Harper, of this area for the past few years, have just purchased four acres and home on 101, south of Harbor from Mrs. Wm. J. Owsley of Smith Falls. Transaction was handled through the Pete Lester Agency.
