Nowhere a Finer Climate - Nowhere A Finer Community

VOLUME THREE, NUMBER XXXXVIII.

BROOKINGS, CURRY COUNTY, OREGON

THURSDAY, FEBRUARY 3, 1949

## Russian Question Topic, Sunday, At Bible Lecture

"Despite the current Russian peace offensive, we can draw but one inevitable conclusion from our contacts with Russia during these last three years.

"That is, that Moscow's aim is still Communistic world domination, no matter what tactic they use. It may be the weapon of peace or the weapon of war, but the objective is still the same—world domination."

With these remarks Pastor Leo VanDolson inaugurated a short series of Bible lectures pertaining to current events and their spiritual significance in the light of Bible prophecy at the Chetco Inn last Sunday night.

The Seventh-Day Adventist pastor went on to show that seven Bible words recorded in Daniel 2:43 doom to failure the attempt of any power or combination of powers to achieve complete domination of Europe and the world.

"These seven mighty words," he said, "which still flash in letters of fire across the storm clouds of these turbulent times are the words of the prophet, Daniel, written 2½ millenniums ago, 'They Shall Not Cleave One To Another.'"

In concluding the lecture, VanDolson stated, "Our prophecy predicts that one power will never again rule the world until Christ himself shall come to reign. The supreme message of this great prophecy is not that Europe is to remain in disunity, but that in the very time of the existence of these nations of Western Europe the God of heaven will intervene in human affairs, finally setting up His own permanent kingdom on this, our earth."

Sunday night's address was the first in a series of "Know Your Bible" lectures being presented at the Chetco Inn. Lectures yet to be presented this week include the lecture, "What Think Ye of Christ," Thursday night at 7:30, and the lecture, "Seven Blunders of the World," Saturday morning at 11:00.

The topics for next week's lectures in this series are listed on page four of this issue. The public is cordially invited to attend each of these lectures.

## Hanscam "Hoop" Team Plans Hit

Few people knew it, but the "sons" of E. E. Hanscam & Sons, had secret ambitions. These had been progressing without interruptions for some time.

In about 1962-65, it was their hope to dominate the basketball team at Brookings high school—that is until Merle upset the plans somewhat last Friday.

Into his family was born a girl—something not so common in the Hanscam family history. Quoted Vernon with some disgust: "We were robbed—now it will not be complete."

Don't let those comical drivers put you in stitches.

## Rotary Anns Will Hold Meeting Thursday Noon

In their first meeting for several months, the Rotary Anns have billed a pot luck dinner for 1:00 o'clock this afternoon at the Weideman home.

Several matters will be discussed by the group, with emphasis to be put on plans for assistance to the Rotary club in its inactions.

## "Antique" Tea Set For Library Benefit

As everyone knows, the community library has been in existence for much over a year—under sponsorship of the Harbor Community club.

As all know the project has been worth while, and that no one would wish it discontinued.

The library board, at its last meeting, Tuesday, planned an afternoon and evening for an "Antique" tea, with the date being set for Washington's birthday, February 22.

Set for the Grange hall, everyone in this community is asked to display any and all antiques they may have, regardless of its shape or condition.

Proceeds will go for improvement of the library, sadly in need of many items. More details will be revealed next week.

## \$406.91 Raised In Dimes Drive Here

According to Mrs. Doris Freeman, Brookings March of Dimes chairman, the community raised \$406.91. Her report:

Dance	\$180.28
Boxes	120.62
Letters	103.61
Upper Chetco School	2.40

Total \$406.91

Proceeds are yet to come in from the miniature school houses which were passed out Monday and will be returned Friday.

Thor Ask was the recipient of the toaster given at the dance, and donated by Chetco Home & Appliance Co.; Edna Newman received the \$5 grocery order by Chetco Store and Bertha Beers, the \$5 grocery order from the Brookings Market.

Bert DeMoss deserves mention for the \$43.03 which was in the can left at his service station.

The local committee wishes to express its appreciation for the support received from the community. Thanks also are due to Chetco Grange for donation of the hall for the dance.

## Used Car Dealer Establishes In Area

With Dewey Cassidy, recently from Morton, Wash., acting as local agent, a used car agency has been established in this vicinity by a Morton concern.

On page eight of this issue appears an announcement, stating that new and used cars, of any make or model will be available to people of this area, by contacting Mr. Cassidy.

## Bruins Took Three From Gold Beach On Local Floor, Fri.

Brookings High Bruins last Friday evening repeated their domination of Curry county hoop tradition by slaughtering Gold Beach in the second meeting of the two schools for the 1949 season. All three games were put to the credit side of the Bruins' ledger.

### Volleyball Game Runaway

So completely did Brookings girls have the volleyball game in their grasp it was almost at the end of the first half before Gold Beach was given the courtesy of making a point—Brookings had amassed 34 by that time.

In the second half, when it had no longer interested the local girls, who began to "fool" around, did Gold Beach show any life. The game ended with the Brookings girls leading, 56-12.

### B String Game Interesting

Highlighting the evening, was the game between the two second teams, who fought desperately for every point each made. Gold Beach grabbed an early lead, and it was just before the end of the half that Brookings was able to overcome and take the offensive to a point of pushing the play.

Only a couple times in the entire struggle was the lead safe for Brookings, and this came in the closing seconds of the game when the local scored a few real rapid baskets to stretch the lead to eight points, winning, 29-21.

### Shows Championship Form

It was admitted by a few Gold Beach fans, after their team had beaten Ophir by a like score run up by Brookings, that Gold Beach has definite victory plans. The game was terrific in speed, but the championship form displayed by the Bruins was not to be denied, for the score was gradually widened as the game progressed. The Bruins made it decisive with a 62 to 44 drubbing.

## Womens Club Sets Smith River Meet.

SMITH RIVER—The Women's Club will meet tomorrow, Feb. 4, at the community hall with a special program planned by Mrs. Jessie Lessard, program chairman, during which the Azalea Garden Club's choral group, under leadership of Mrs. Nell McKenzie, will furnish the music.

Those who heard the group's interpretation of Spanish music will want to hear the group at this time, again.

Mrs. Leonitine Bennett will review a book. To be brought before the club for discussion will be how to handle the Crescent City library books, made available by the county contract, through the local library.

Mrs. Oliver Bailey is tea hostess for the meeting.

When following another car a good rule is to allow at least one car length for each ten miles an hour of speed.

## Site For Club House To Be Discussed Tuesday

Consideration of the site for the new club house will be ample reason for a big turnout of members of Chetco Rod and Gun Club, next Tuesday, Feb. 8.

The committee, appointed to investigate and make recommendations, will be ready to report. It has been said. This club house is expected to be built this coming spring, if action is taken.

## Ben Kerns Sr. Dies Monday Evening

Following illness of several years, death summoned Ben E. Kern Sr., Monday evening at 9:00 at the family home at Keno, near Klamath Falls, where he had long farmed. Funeral services were held Wednesday afternoon at Klamath Falls with interment at Santa Cruz, Calif.

Mr. Kerns, who made his home in Harbor area for four years, is survived by his widow, Clara, two sons, Claude of Keno and Ben Jr. of Brookings; by three daughters, Esther and Edna of Keno and Mary of Medford, by 11 grandchildren.

From a pioneer family of that county, Mr. Kerns owned a 2500-acre ranch on Klamath River, where for years they were well known in the cattle industry.

Mr. and Mrs. Ben Kerns Jr. left here early Sunday to be at the bedside during Mr. Kerns' final illness.

## Burial Services To Held Here, Sunday

Graveside services, under direction of Chetco Post No. 138, American Legion and Post 966, Veterans of Foreign Wars, will be held Sunday at the local cemetery for T/5 Wm. E. Steele, who was killed in action near Aachen, Germany, Nov. 24, 1944.

Brought here by military escort, full military honors will be given, at 2 p. m. (An obituary will be published next week).

## New Signs Dot Main Street Business Houses

When the Nook Cafe began with a new front, and a newly-painted sign, last week, more of the businesses along main street kept in step by having either new signs or re-newals made on their own. Pine Cone Tavern was second in the movement.

## Budget Hearing Held Last Thursday

Budget for School District No. 17, advertised for discussion last Thursday, attracted little attention on the part of the people of the area. It is evident to most that schools need all the finances and the budget must have been sufficient as far as the local district was concerned.

This approved budget will be turned over to the rural school board for consideration and approval, this month.

Never mind who's right. Walk so you'll be left.

## Rotarians Learn Astronomy Lesson At Luncheon, Tues.

"Light years, the method of measuring distance in space, and something about our solar system," were contained in Tuesday noon's talk at Rotary, by Ed F. Ackley who has long made a hobby of studying astronomy.

In way of comparison of sizes, the speaker had an orange, cut in half, on which he put a pin prick to denote the size and position of the sun as its ration to our own solar system. The entire orange, representing universe he compared to the pin prick on the half orange he used to illustrate the position and size of the sun to the solar system.

Since there remains so much to learn about the universe, its magnitude, etc., the speaker took up the description of the solar system involving our sun and its nine planets, and their satellites.

All stars, he said, were suns of other solar systems, and the one nearest to the earth is two light years away, or may be computed by multiplying the speed of light, 186,000 miles per second by the number of seconds in a year, and multiply by two. Polaris, the north star, is 144 light years from the earth.

The speaker compared the densities of all the planets, using the earth as 1, or the base. He also compared the revolution of each planet in its orbit in comparison to that of the earth.

With time preventing, much of the data had to be carried to another time when the program will be open.

### Club Invited To Gasquet

Dr. H. A. Stover, president of Crescent City Kiwanis club, was present to extend an invitation to all Rotarians and wives to be present Saturday, Feb. 12, at a party and program at Gasquet. Since that is also the night set for the Rotary benefit dance, he suggested that a little "reciprocity" might be effected.

### Jim Vincent Guest of Club

Leaving that day on his two-weeks trip to Washington, D. C., and New York, Jimmy Vincent read a copy of the itinerary he was to follow. He promised to tell the club all details on his return. He also thanked the club for his Sea Scout uniform and the \$25.00 gift of spending money.

## Tony Grace In Hospital With Scalded Foot

A letter was received Jan. 31, by Mrs. John W. Hogan, from Mrs. Tony Grace, of West Yellowstone, Mont., telling of Mr. Grace's having a severe and painful burn, sustained when he accidentally stepped into a bucket of scalding water, he was about to use to scald a chicken.

Wearing a high laced boot at the time, Mrs. Grace had difficulty in removing the boot in time to prevent the burns from going deeper. He is now at the Deaconess hospital, Bozeman.

The Graces lived here for a time, leaving in June, 1946, for their present home.
