

Barbershop "Guys" Make 'Harmony'

The Community Church rang Monday evening to the chords of barbershop melodies in the style of the good old days. Enthusiastic tenors, leads, baritones, basses and crows (those who 'sit on the fence' and just listen) gave out with "Moonlight Bay" and other quartet favorites.

Although barbershop harmony is sung with accompaniment, Mrs. Lusille Patterson played the piano to teach the group their four-part harmony. She proved herself a capable "barbershopper" by not only detecting a "sour" note but also by demonstrating that she can sing a beautiful top tenor.

Any adult male in the community who likes to sing or would like to learn to sing or would like to listen is cordially invited to attend these sing-fests which are planned for every Monday evening at 8 at the church basement. It's like Brad Page says: "You don't have to sing well to enjoy it—look at Bob Perkins."

Present at Monday's session: Lloyd Moss, Emil Moore, Ernest Jones, C. H. Grayshel, Stan Patterson, Bob Perkins, Lou Harvey, Gilbert Christensen, Carl Bolin, G. Hoagland, Val Mendenhall Sr., Bert DeMoss and Bradley Page.

Oregon Traffic Deaths Reach 25 In March

SALEM—Oregon traffic deaths reached 25 in March, exceeding the toll of the two preceding months combined, Secretary of State Earl T. Newbry reported this week.

March fatalities add to the 12 deaths reported in January and seven charged to February accidents to bring Oregon losses for the first quarter of 1949 to 44. The same period of 1948 saw 83 lives lost.

Fatality reports received to date show 19 of the March deaths took place on rural highways and six inside cities and towns. Four persons died in Portland traffic accidents during the month.

Newbry said the return of warmer weather and consequent increase in volume and speed of highway traffic is bringing a sharp rise in high-speed accidents. He said at least 13 of the March fatalities were directly traceable to excessive speed.
