

# SPORTSMEN'S COLUMN

Drier grow the hills and woods, lower runs the river, as we and old Man Salmon await better water conditions in the Chetco and Winchuck, but that fleet of fishing boats that appeared on the horizon last Tuesday indicated that a nice run of salmon was not far away. And did you SEE that fleet? Forty-seven boats were counted. Wouldn't it have been nice if we had a jetty and harbor and have them all leave here instead of having them come from points further south.

The sea fishing this week has yielded a couple of strange catches. Ed Riverman (imagine a man with a name like that fishing in the ocean jig fishing with a 16-ounce sinker pulled out, believe it or not, a sea bird, a shag, one of these babies that can dive and cover territory about as fast under water as in the air, and which was lured in the same fashion as the fish by something flashy, and as he thought, tasty. Ed also neared the record in bringing out a 50-lb. ling cod and a couple of salmon.

"Scotty" Blachley, fishing off Split Rock, which is near Harris park area, pulled out an 82-pound ray or skate, which is a vicious member of the flounder family.

Dr. Finley of Medford flew over for some trout fishing in the Chetco. Because of lack of landing field hereabouts he had to land in Crescent City, of course, and hire transportation to this place, suggesting another field for development here. His trip was rewarded by a few nice trout.

Griffith and Anderson brought up four salmon, caught in Smith River, for processing in the new cannery where installations have been completed and the test run made Tuesday. The new establishment has also been making some smoking tests in light smoking of cod and tuna, both of which seemed to yield a very tasty product.

The pigeon season having opened on the first Dr. A. O. Schmitt with John Hogan and Wes Smith sallied forth to see what they could do. Their practice in trap and skeet shooting stood them in good stead and a nice take of birds was made.

Virg Goldsberry took his small son and Dickie Berger out on the same mission. They bagged a couple. It is presumed that the lads got one apiece and Virg got what another "little boy shot at."

Some of the Rod and Gun Club committees have been doing a fine piece of work and progress at the club house is coming on apace. However, the non-arrival of some of the facilities has precluded the advisability of holding the next club meeting there, so Tuesday's meeting will be held at the Grange as of yore.

## HENDRICKS FURNITURE COMPANY

*Should a necessity carry a high federal tax?*

Telephone service is generally considered to be a necessity. Yet the Federal tax on long distance and other telephone service goes as high as 25%! The tax on luxuries is only 20%. That means the necessary long distance telephone call you may have to make in an emergency will be taxed higher than luxuries.

And that is only part of the telephone tax picture. Federal tax increases your local service bill by 15%. Long distance calls of 25c or over are taxed 25%. Other forms of telephone service are taxed from 8 to 25%. This excise tax is imposed directly upon you as a telephone user. Your telephone company, at its own expense, acts as a tax collector.

These excise taxes are in addition to the corporation income taxes and other taxes which the company pays to the federal government either directly or indirectly.

We are sure your Senators and Representatives in Congress would welcome your views as a taxpayer and citizen in helping them to guide future action on this peacetime tax of a necessity.
