

### Visitor Swears He Will Get 'Lost' Fish

During the past week Mr. and Mrs. Elton J. Smith of Denver, Colo., have been visiting at the Erskine Miller home. That is, Mrs. Smith has been visiting her sister, Mrs. Miller. Elton Smith has spent all his waking hours fishing.

He has had many years experience fly fishing for brook trout in Colorado, but this was the first time he went after the big boys. While out in one of Parker's boats he hooked a big silver-side and started to pull it in just as it was a little Colorado trout—when, lo—the big boy kicked up his tail, gave a few flips, straightened out the hook, and was last seen heading out to sea.

A sadder, but wiser, Elton Smith was left behind. Later on he was successful in landing several large rock cods and sea bass. Saturday afternoon Mr. Riverman and his two boys and Smith had an exciting time landing their small boat through the surf, which was successfully accomplished with the addition of plenty of water. Smith departed for Denver with a firm resolve to return and land that same silver-side salmon.

### Pelican '49 Records Show "Strength"

The baseball season suddenly ended last week with forfeiture by Glendale of the play-off games for the trophy and pennant of Rogue Valley League. Glendale had disbanded, some had gone away to school, so the trouble to gather up players must have been too much effort on their part.

The Pelicans, closing the season with 14 wins in 17 games, boasts of the most successful season the management could hope for. In reviewing the season, which Pete has down in statistical form, he smiles with much satisfaction. He has kept about as complete a record of everything as may be found in any of the major leagues. Monday he compiled the batting averages of the players, and pitching records, to give to the Pilot as his final copy for the current year:

### In The Mail-box:

Editor, Pilot: Now that it is time to say "goodbye," we would like to take this opportunity to express our appreciation and sincere gratitude for having the good fortune of residing in this beautiful area the past eight years. We well realize we would search in vain to try to find a nicer place to love anywhere "under God's sun." Where else would you find such a rare combination of wonderful scenery, climate and people?

During our sojourn here we met many splendid people, some of the nicest folk we ever met, and we are honored to have had their friendship bestowed upon us.

We only wish time would have permitted us to have said "goodbye" to all of them personally.

In closing we would like to quote from Robert Louis Stevenson: "We are all travelers in the wilderness of this world, and the best we can hope to find is a friend." Sincerely, Mr. and Mrs. Howard T. James and Darlene.

P. S.: Our new address will be 12310 Venice Blvd., Los Angeles (Mar Vista), Calif. We will always be most happy to hear from any of our Oregon friends or do any errands or business for them (except pay their bills).

### Salmon Fishing Is Poor On Rogue

GOLD BEACH—Salmon fishing at the mouth of the Rogue river has been rather slow because of high tides. Several are being taken in Ferry Hole. Fly fishing for steelhead was fairly good from Kimble Creek up, according to Frank Colvin. The upper river rose five inches from thunder storm in the Agness-Power district and when this clears, fishing should be exceptionally good.
