Brookings Pelicans held a second baseball practice at high school diamond, Sunday afternoon, and while the number turning out was somewhat disappointing to Business Manager Lesmeister and Manager Matson, several new players are in the area who had promised to turn out, and failed to put in an appearance for the much-needed workout.

With first practice game May 7, against Crescent City less than three weeks away, the starting line-up is far from set. Unless more local players show up soon other players must be brought in. A first baseman, another receiver and another outfielder are practically a necessity.

Matson has called a practice for Saturday evening at five and another long session for Sunday afternoon at 1:30. If enough of the players turn out Sunday an inter-squad practice game will be attempted.

Why not buy where the future looks brightest? We think it's right here in Brookings-Harbor area. Whether you wish ocean, river or mountain property, we have it to show or just a small lot for that small home.

Also, we have some of the finest business opportunities in S. W. Oregon.

We have now listed some of the very finest of ocean frontage in the entire area—known as the Pedrioli Beach property—if you are looking for the best we must show you this.

New home almost completed in fine district. Excellent well, with pressure system. Large view windows. On good graveled road only 3 blocks from town toward ocean. You can buy this reasonable now and finish to suit your own desire. All materials to complete on hand. Only \$4800 with good terms.

Here is really a lovely, charming place with small house, garage and bulb shed or combination of garage and guest quarters. Bulb planting worth about \$3000. Commercial salable bulbs should bring about \$1800 this fall. Also a beautiful stream, a good spring with electric pressure system for household and irrigation. Wonderfully well protected from the wind. This is a beautiful park, home and bulb ranch combined. 3 1/2 acres on graveled road. Don't fail to see this property at \$7500 with terms

Greatly reduced. 7 acres right in the heart of Brookings. Here is the logical spot to build those badly-needed rentals. City water and electricity. Unfinished house with fine circulating fireplace, also large barn and guest cabin. We believe this to be a real buy at only \$6950.
