

Along Azalea Row

By B. Miller

Everyone enjoyed the photographic exhibit at the Garden club flower show and art exhibit. These alone, were worth the price of admission. The corridor where the pictures hung was full of people. Ralph Vincent was responsible for obtaining these pictures many of which traveled the country over. He, himself, is an artist with the camera. His camera studies of the circus were excellent.

Mrs. Roy Weideman, chairman of the flower show, and Mrs. Bob Perkins, chairman of the art exhibit, will make short reports at the club meeting Thursday afternoon, July 13. Officers for the coming year will be installed. Mrs. Ben Kerns will bring news of the recent meeting of the Oregon state federation of garden clubs which was held at Klamath Falls. The hostess chairman for the afternoon is Ruth Bathiany.

Congratulations to Mrs. A. E. Sandbo who received sweepstakes award for artistic arrangements at the flower show. And to Bill Weideman who won sweepstakes for the show with the most blue ribbons in the horticultural display. And no wonder! If you have seen his garden, you can well understand why he won! If not, go sometime and see it.

Bill Weideman lives right in Brookings, across the street and just a few doors down from the Community church. His garden is in the back of his home. Tended with loving care, the blooming bowers are on a gentle slope which ends in a little stream. Here is Bill's supply of live fish. Comes Friday night, and fish for dinner—Bill goes down hill, casts in and supper is soon ready.

Another village garden worthy of a special tour is Mrs. Harry Lockland's. Always charming, it was re-arranged this year, with grass strips and a lawn added. These two, Bill Weideman's and Dorothy Lockland's are excellent examples of how the village resident adds charm, not only to

his homesite, but the whole immediate neighborhood as well.

Here at Weedy Acres, we are busy mulching the rhododendrons—the philosopher works on his road, and is as brown as a berry! As brown as a berry—what berry?

METAPHRUIT

Genus Solecistic

Brown as a berry by the sea
People often get to be.

Often spend their hours most merry

By the sea as brown as a berry.
But it brings to mind this query
—WHAT Berry?

Red as Rasp, and red as straw;
Green as Goose, maroon as haw,
Gray as Bay, and blue as blue;
Black as Black, and huckle, too!
Purple mul, and young and Logan,

Not tittle aid the slogan.
Boysen is a modish mauvish;
Blackcap Rasp is sort of stovish.
Red is what most berries are—
Cran, the Holly, Checker, Bar,
Tho the Elder's black as night,
And the currant's often white
While the Whortle, dew and hack
Turn from green to red to black.
It's a most elusive berry
People get as brown as Cery.
