**Chetco Wranglers Organized Sunday**

A new organization in the local community is the Chetco Wranglers, a group of horse enthusiasts and riders, who organized Sunday and named officers:

President—Dave Crockett.

Vice-President—Leo Lucas.

Secretary and treasurer — Ed Thornton.

About 20 men and women already have joined this new riding club. Future plans concerning a community barn and local grounds were laid. The next business meeting is set for Tuesday, Aug. 1 at the Morris ranch. Anyone interested in horses or who own any, are urged to come.

*Rode Sunday Afternoon*

This group took a ride up the old Gold Beach road Sunday, and to Lone Ranch and to the beach where races were enjoyed. The question of the swiftest horse is a big question. A picnic lunch was enjoyed by the 12 who rode Sunday.

Class Ads Pay—use them!

For some unknown reason, brides 97% generally looked upon by the rest of the sisterhood as being a grudge on the stupid side. The fact of the matter is that a bride has to be smartly alert for all kinds of facts for future reference in eventually running a successful home.

Take the other evening when my favorite spouse and I were invited to dinner at the home of friends. I was anxious to see how Marie managed a home, a husband, and a three months old baby.

Digging in after dinner to help with the dishes, the first thing I spied was several Evenflo nursing bottles. Acting very professional, I rinsed the bottles, then asked for a bottle brush to scrub off the milk film.

Then I learned some facts on time, money, and drudgery-saving.

It seems Marie had been having too many sessions with broken nursing bottles and finally took her woes to a clerk at a baby counter. When the clerk discovered she had been using a bottle brush he explained that the brush was responsible for much of the trouble. Apparently among hardware men an established trick for breaking glass smoothly is to first score or scratch the surface with a hard instrument. When force is applied the glass breaks cleanly along the score mark. The same principle, the clerk pointed out, applies in using a wire-handled brush when cleaning baby nursing bottles. The metal end of the brush weakens the glass with tiny, almost unnoticeable scratches which are sufficient to break the bottle when it is subjected to a slight jar or to quick heating or cooling.

The clerk gave my friend some Evenflo brushless baby bottle cleanser which solved the whole problem. A tablespoonful in warm water quickly dissolves and removes the milk film in baby bottles and leaves them sparkling clean.

Now there's a bit of information that might come in handy some day!
