Nowhere a Finer Climate — Nowhere A Finer Community

VOLUME FIVE, NUMBER XXV

BROOKINGS, CURRY COUNTY, OREGON

THURSDAY, AUGUST 17, 1950

## "The Redwood Home of the Future" Will Be On Display

Interest is running high about the "Redwood Home of the Future," manufactured by White Rock Construction Co., just south of the State Line. Open House is set for next Sunday, at the site of the plant, on the Fielding Ranch, one mile west of Smith River, across from "Valley View" Court. See details on page six of this issue, concerning open house.

## Ride On Lumber Loader Proved Fatal To Four-Year-Old Lad, At Planer, Satur.

Fun of riding with his father, Saturday, ended fatally for David James, 4-year-old son of Mr. and Mrs. Ray Berney at the planer, shortly before 2:00 p. m. The tragedy came with lightning suddenness, and before it could be prevented, he fell from the lumber loader and was crushed beneath its wheel. Death, according to Dr. A. O. Schmitt, was instantaneous.

The Berney family came here just a few weeks ago, when he and Mr. McElfish bought the Gadberry and Campbell planing mill on Easy Street. The Bernays had only last week, purchased a home on the ocean, at the end of Arnold Lane.

The body was shipped to Milwaukie, Oregon, the former family home, Sunday for last rites and burial.

The little lad is survived by his parents and a sister, Linda.

## Truck Dealer To Locate In Area

Paul Davis, for six years sales manager for the Roseburg International Harvester Co. truck division, has located in Brookings and will open a local agency in the Steel building to rear of the Gardner building.

Married, Mr. Davis has had 16 year experience in the truck industry and comes highly recommended by the International Harvester Company officials. He will maintain a service and truck repair department, once opened.

A brief message appears on the back page of this issue.

## Del Norte Fair To Feature Week-end

Southern neighbor — Crescent City—is preparing for a grand three-day holiday, Aug. 18, 19 and 20, when the 41st agricultural district presents the 64th annual Del Norte county fair. This year's fair promises to be the biggest in history, with record-breaking entries in all divisions.

Included on the three-day program of fair fun will be afternoon horse show, free-for-all, and chariot races, Monte Brooks entertainment, feature exhibits and locally-sponsored carnival concessions. Friday and Saturday nights, a one and a half hour special program will be presented at the fair grounds by Monte Brooks and his entire group.

The annual fair dance will be held at the Memorial hall, at Crescent City, Saturday.

One of the feature exhibitors in the large floriculture display will be Lawrence Baker of Fort Dick, who is entering about 40 varieties of dahlias and gladiolus, many of them new varieties grown by himself.

## Daughter Married At Church Affair

An event that will be of interest to people of this area was the wedding of Barbara Jean Olsen, daughter of Mrs. Jean Horst, to Hendrikus Martinus Meyer Jr. son of H. M. Meyer of 34th Ave., San Francisco.

The double ring ceremony was performed by Father Murry at the Star of the Sea Church, 8th Ave & Geary Blvd, San Francisco, Aug. 5, at 1:30 p. m.

The bride wore the traditional white satin gown with long train and a lace yoke, edged with seed pearls and a full length veil, with lace applique and a matching lace halo. The veil was designed and hand-made by Mrs. W. M. Jones of Klamath Falls, aunt of the bride, and formerly of this vicinity.

The bride carried a white satin-covered prayer book and two white orchids.

The four bridesmaids wore powder blue nylon marquisette gowns and white begonias, with headpieces of a yellow begonia fastened in place with satin ribbons. The groom and ushers were attired in black trousers with white morning coats.

A reception, was held at the California hall, Polk & Turk St. Following the reception the newly-weds were escorted to the bridal suite of Hotel St. Francis, to enjoy dinner-dancing. They left the following day for a two weeks honeymoon in the Santa Cruz mountains.

The young couple will make their home at San Francisco, Mr.

## Seaview Creamery Starts Business Fri.; Ultra-Modern New Business In Vicinity

Seaview Creamery, the area's newest modern business, officially opened for business last Friday after months of preparation, during which time Mr. and Mrs. R. L. Chisman spared no expense, and thought in the planning to make this business the most up-to-date in southwestern Oregon. It affects the economy of the area inasmuch as it gives another outlet for the area's big industry—dairying—which will be given impetus by the creamery.

## Milford Tells About Scout Jamboree at Valley Forge, N. J.

"To see those 1700 scouters, and almost 50,000 Boy Scouts at Valley Forge, on the site of the historic Washington's winter stand, was a sight to behold," asserted George Milford, member of Red Bluff, Calif. Rotary club, and one of the national Scout council, who attended the historic affair.

"Boy Scouts were present from all the 48 states, from our possessions and from 17 foreign countries. Perhaps the boys didn't always understand the language of the other but they understood the brotherhood. Boys traded all they could with other lads, mingled, and ate with others, always showing the greatest of courtesy.

"We heard great men talk. Of those who addressed the boys included President Truman, Gen. Ike Eisenhower, and a Latvian scout who escaped Germany after the end of World War 2, with his mother. He does not know where to locate his father, two brothers and two sisters, believed dead after these years.

"The threat of communism in this county can't be lightly taken by anyone. Facts were revealed by a member of congress, who said that the files of the secret service and FBI had plenty of names, some of which were in high places in the government.

"The last day at camp, the boys did some pretty sharp trading—there should be some real merchants among these boys—they are sharp. Feature Texas boys painting cockle burrs and making Puerto Rico boys believe they were porcupine eggs.

"Nevertheless," said Mr. Milford in closing, "I'd be willing to stake the future of the world on these boys theme."

Report on the progress of the Gold Beach Rotary club was reported briefly, and word was given that a club would be formed there some time shortly.

## Coast Literature In Great Demand

TILLAMOOK — The demand for literature on the Oregon coast continues heavy, the majority of requests originating in California and Canada.

Requests for information on camp sites is unusually heavy at this moment with a lot of these requests referring to the

Meyer will complete his studies in electrical engineering at the University of California.

About a year ago, Mr. and Mrs. Chisman moved to this vicinity, purchased the John Rogers home, near the old Mess hall and the land immediately to the rear of the lot. He started construction of a new building, purchasing the latest in creamery equipment, to install here for his "Seaview Dairy."

The new building, with its spotless and shiny equipment, is the latest in modern methods. The aggregate cost of things to open the business total almost \$30,000, which people feel is putting real faith in this area.

Elsewhere in this issue is an advertisement of the new business, together with a page of welcome messages from other businesses of the area.

Mr. and Mrs. Chisman welcome visitors to their plant, to see how carefully their food is handled, and how it more than meets standard requirements in the handling of milk and milk products. Their products are to be seen in all the local groceries and food stores.

## Picnic, Saturday Masons, Stars Set

Eastern Stars and Masons will picnic Saturday, Aug. 19, at Bear Creek USFS camp, 8 miles up the Winchuck. One hundred and fifty notice cards have been sent into the area between Crescent City and Gold Beach and subsequent interest indicates a big crowd. It is for the young folks, too.

As the park furniture is limited it is suggested that people bring card tables. There are adequate parking facilities at the site, and a pooling of transportation is suggested. Committees have been set up according to limited foresight with one designated as the "hat-passers" (winsome young things) to circulate the crowd, hoping to accept enough to defray incidental expenses.

Plans call for dropping in in mid-afternoon with pot luck supper about 7. This hour is most convenient for the workers and all are asked to come without dressing up.

The affair is going to be a picnic, spokesmen say.

Mr. and Mrs. Bob Perkins expect to leave Friday for Salem, and other points for a few weeks.

article on forest campsites, appearing recently in the Sunday Oregonian.

Traffic at the Oregon-California line was up 13½ in June of this year over June of last year. Automobile traffic counters on the Oregon coast also show that traffic is heavier than last year.
